# Index to Wallaces' Farmer and Iowa Homestead

Volume 78 — JANUARY TO DECEMBER, 1953, INCLUSIVE — Numbers 1 to 24

## General Index

ACP works for contouring, 9-19-53, p. 26
leave what out of, 6-6-53, p. 14
1954 has new look, 10-17-53, p. 24
pay, ght to hold, 5-2-53, p. 30
payments, what to do about, 3-7-53, p. 11
vote on who should run, 3-7-53, p. 11
Abortions in cow herd, track down cause of, 2-7-53, p. 36
Accidents, corpnicker, suggestions for avoiding, 10-17-53, p. 10
Accidents, farm, number of Iowa people killed in, 9-5-53, p. 65
Accidents, tractor, suggestions for preventing, 5-16-53, p. 56
Acres diverted, what to do with, 9-19-53, p. 24
Agent, county, who bosses your, 5-16-53, p. 26
Agricultural Advisory Commission, Marvin McLain appointed to, 8-7-53, p. 85
Agricultural Conservation Program is "Cost Sharing," 10-17-53, p. 24
Agr'l Engineering Field Day, Iowa State College, June 6, 6-6-53, p. 36
Agriculture, House Committee on, Midwest Meetings scheduled by, 8-15-53, p 30
Air-Pressure unit built by Kenneth Adkinson, 4-4-53, p. 64
Aldrin most widely used chemical on corn, 11-7-53, p. 22
Alfalfa, August is month to seed, 8-15-53, p. 34
baled, left in field well preserved, 2-21-53, p. 76
for livestock feed, efficent way to harvest and keep, 1-17-53, p. 72
hardy kinds, should be sown, 9-19-53, p. 36
hay, lose protein in putting up, 7-4-53, p. 12
meal in sow rations provides vitamin and mineral needs, 11-21-53, p. 25
newly cut, percentage of water in, 6-20-53, p. 14
or clovers, hard seed in, thin stands of, can't be patched, 5-21-53, p. 46
variety, new, 6-20-53, p. 37
Allotments are figured, basis on which, 8-1-53, p. 44
corn, accompanied by allotments on other competing crops, 8-1-53, p. 53
Amana Society, I.S.T.C., forest service studying woodlot management, 6-20-53, p. 47
Amana Society leased 3,160 acres of forest lands, 6-20-53, p. 47
American Country Life Ass'n meeting at Ames, 10-3-53, p. 34
American Country Life Ass'n meeting, I.S.C., Oct. 6-8, 9-19-53, p. 67
American Inst. of Cooperation Summer Session, U. of Mo., 7-4-53, p. 33; 7-18-53, p. 45; 8-1-53, p. 46
American Royal, Kansas City, Oct. 17-24, 10-17-53, p. 71; 9-19-53, p. 67
Ammonia Fumes in poultry house, super phosphate keeps down, 4-4-53, p. 34
Ammonia Institute, Agricultural, U. of Missouri, July 9-10, 7-4-53, p. 33
Angus day, Hawkeye, 7-4-53, p. 34
Angus Field day, 7-4-53, p. 34; 9-19-53, p. 88
Angus sire dies, 10-17-53, p. 79
Animal agriculture, national institute of, April 20-21, 4-4-53, p. 72; 4-18-53, p. 63
Anti freeze, replace, with water during summer, 6-6-53, p. 23
Antibiotic carryover from feed, no, 5-16-53, p. 52
Antibiotic feeding of pigs, most benefit comes from, 4-18-53, p. 12
Antibiotics controlled fireblight of apples and pears, 10-3-53, p. 26
Antibiotics, effects of, on plant growth, research needed on, 10-3-53, p. 26
Antibiotics, high level feeding of, 5-2-53, p. 51
Antibiotics in cattle feed found valuable in cattle feeding, 11-7-53, p. 20
Antibiotics in farm soil, 3-21-53, p. 85
Antibiotics into pigs? inject, 3-7-53, p. 74
Antibiotics make meat, 9-5-53, p. 75
Antichlordane controls most types of, 1-17-53, p. 31
Antichlordane dust will drive away, 7-4-53, p. 12
Aphids and weevils wrecked alfalfa and clover stands, 6-6-53, p. 22
Apple crop larger this year, 10-17-53, p. 83
Apples, cold, mean anything, do, 5-16-53, p. 71
Armyworm, Iowa State college recommendation for chemical control, 7-4-53, p. 30
Armyworm outbreak is possible, 7-4-53, p. 30
Arthritis, use common sense with, 11-21-53, p. 51
Asparagus, tips on growing, 5-16-53, p. 34
Athletics in high school, 2-21-53, p. 34
Attack, air, defense from, 4-4-53, p. 66
Awards, superior service, members of Iowa ext. staff, receive, 6-6-53, p. 36
Bale hook handle, longer, makes it easier to handle hay, 5-2-53, p. 43
Baling wire, better lay in supply of, 3-21-53, p. 85
Bang's disease, new regulations on, 4-18-53, p. 58
Banker award, distinguished farm, to Roy A. Sweet, 12-5-53, p. 47
Bark off trees, suggestion to prevent rabbits from chewing, 1-17-53, p. 55
Barn, dairy, pen-type, real time saver, 4-18-53, p. 57
Barn, if wind or fire hit your, 4-4-53, p. 39
Barns, pole-type, cost less, 6-6-53, p. 34
Barrow show, Minnesota spring, Albert Lea, 1-17-53, p. 57; 2-21-53, p. 75; 2-7-53, p. 64; 3-7-53, p. 85
Barrow show, Minnesota state spring, Albert Lea, 12-5-53, p. 47
Barrow show, national, Austin, Minn., 8-1-53, p. 46; 8-16-53, p. 84; 9-5-53, p. 65; 10-3-53, p. 57
Beans do better than corn on fields with alkali spots, 5-2-53, p. 16
beans, how to save more, 9-19-53, p. 14
Bedding, bale corn stalks for, 12-5-53, p. 16
bedding, thick, for cows, advantages of, 2-7-53, p. 36
Beef and swine champions at Nebraska State Fair, 10-3-53, p. 63
cows up 29 percent, what's ahead, 3-7-53, p. 86
cows, winter, in two groups, 12-19-53, p. 14
herd, keep close track what calves do when building up, 10-3-53, p. 16
herd pay, make your, 10-3-53, p. 10
lower grades of, stiffest competition for pork, 12-19-53, p. 30
more, to market, 5-2-53, p. 30
per person, pounds of, estimated, 12-19-53, p. 30
prices, lower, didn't discourage feeder calf, sales, 11-17-53, p. 18
prices, no support for, 5-2-53, p. 50
prices, what's going to be done to help, 3-21-53, p. 71
prime, in every county, 9-5-53, p. 36
producers Field day, Iowa, Cedar Rapids, July 31, 7-18-53, p. 46
show, tough competition in, 9-19-53, p. 28
slaughter, heavy, could shorten profit period in corn-hog cycle, 6-20-53, p. 54
supplies may drive hog prices down, 3-21-53, p. 95
Beer taverns in country neighborhoods, don't want, 3-7-53, p. 72
Beeves, good to choice and prime, bit top from September to November, 4-4-53, p. 34
low grade, bring highest prices in April and May, 4-4-53, p. 34
Benson, eastern press likes, 4-4-53, p. 69
Benson's advisers, 1-3-53, p. 43
Bill of rights, interviewers asked farm people about, 9-19-53, p. 68
Birds are farm helpers, 12-5-53, p. 22
Birdsfoot trefoil for pastures, 3-21-53, p. 10
trefoil seed for pasture, buy domestic, 1-3-53, p. 20
Bliss, R. K., received recognition scroll, 10-17-53, p. 71
Bloat danger for cattle and sheep less as legumes become stemmy, 7-4-53, p. 12
Bloat danger, less, chopping pasture and hauling to cattle means, 8-1-53, p. 12
on legume pastures greatest, times when, 5-16-53, p. 34
first aid treatments to relieve, 5-2-53, p. 14
on pasture, watch for, 5-2-53, p. 14
preventive, household detergents show promise as, 10-3-53, p. 18
"Blue Bottom" in chicks not a disease, 6-6-53, p. 23
Bluegrass seed crop appears smaller than normal, 6-20-53, p. 47
likely in rather short supply, 8-1-53, p. 55
Boar buying, do's and dont's of, 9-19-53, p. 45
buying, use care in, 9-19-53, p. 45
meat-type, for you? 8-15-53, p. 16
can fool you, 10-17-53, p. 20
Bonds, asks about, 1-17-53, p. 52
E and H Series, sales of 12-5-53, p. 47
Books and bulletins:
farm account book, 1-3-53, p. 1
1-3-53, p. 16; 1-3-53, p. 20; 1-17-53, p. 16; 1-17-53, p. 22; 2-7-53, p. 22 2-7-53, p. 36; 2-21-53, p. 44; 3-7-53, p. 44; 11-21-53, p. 43; 12-5-53, p. 44; 12-19-53, p. 13
Bulletin P 115-1952 corn yield test, 2-21-53, p. 20
garden pamphlet 5-2-53, p. 44
tomatoes on your table, 7-18-53, p. 36
farm policies of the U.S., 1790-1950, by Murray R. Benedict, 8-1-53, p. 47
farm policy forum, I.S.C., Press, 9-19-53, p. 9
plans for hay saving rack, U. of Missouri, 10-3-53, p. 62
Home care in rheumatoid arthritis, 11-21-53, p. 51
Corncobs for wintering beef cows, AH 647-county extension office, 12-5-53, p. 7
Feeding corncobs to cattle, pamphlet 192, county extension office, 12-5-53, p. 7
Circulars 1460 and 1490, Nebr. U., inf. re selecting best layers, 12-5-53, p. 40
Boom is ending, now that, 2-21-53, p. 38
Borers, don't mark, off your list, 5-16-53, p. 28
puzzle the experts, 7-18-53, p. 35
second brood, best time to spray, 7-4-53, p. 30
Brain a chance to save muscles, farmers should give, 9-19-53, p. 36
Breed cows for surest results, when to, 1-17-53, p. 16
pen, pen boar near sows if you, 11-7-53, p. 20
sows in October for February pigs, 10-17-53, p. 18
to proven dairy sires, 10-17-53, p. 60
Breeding, artificial, increases, 1-3-53, p. 55
of sows, pen, saves time and worry at farrowing time, 11-7-53, p. 20
technicians, artificial, five big problems of, 1-3-53, p. 22
troubles, artificial, 1-3-52, p. 22
Brooder, pig, invents automatic, 4-18-53, p. 32
pig, movable, 1-17-53, p. 18
Brown, John, dies, 12-19-53, p. 25
Brucellosis, free hog herds in Iowa, 72, 11-21-53, p. 49
in dairy herds, bill relating to, 4-4-53, p. 71
present when cows fail to clean after calving, 3-7-53, p. 48
watch sows for, 2-7-53, p. 34
when to consider hog herds free from, 2-7-53, p. 36
Brush killing chemicals applied with paint brushes, 7-4-53, p. 12
or woody plants, mixture recommended to kill, 2-21-53, p. 46
Budget balance for federal government not expected before mid, 1956, 12-19-53, p. 30
Bulb, heat, 250 watt, electricity used by, 3-7-53, p. 48
Bull, get proof on, 2-7-53, p. 69
needed, good, to keep herd improving, 10-3-53, p. 10
Bulls, dairy, win sire awards, 9-19-53, p. 11
ten top, proven in Iowa win awards, 9-19-53, p. 20
top, testing shows, 9-19-53, p. 20
Bunk, about the same line of, 2-21-53, p. 83
Bureau of agricultural economics split in two, 11-7-53, p. 6
Bus fare paid, wants, 2-21-53, p. 83
Business slow-up in 1954, reasons for, 10-3-53, p. 42
Butchering is easier now, 1-3-53, p. 30
Butter consumption took upward turn during April 1953, 6-20-53, p. 47
forces lose first tussle with oleo, 2-21-53, p. 22
in trouble as oleo gains, 1-17-53, p. 14
low-fat, to compete with oleo, 11-7-53, p. 29
men lose in vote shift, 3-7-53, p. 26
more help for, 3-7-53, p. 36
-oleo fight comes soon, 2-7-53, p. 20
spoil, will all that, 3-21-53, p. 70
support, quality is key to, 2-7-53, p. 14
supports to end next year, 5-16-53, p. 10
surplus, farmers asked about, 11-7-53, p. 16
surplus, way to move, 8-1-53, p. 11
what to do about, 10-17-53, p. 12
Butterfat drop this spring, stop, 5-16-53, p. 57
price disaster, suggestions on helping prevent, 2-7-53, p. 14
price support program, small producers hold key to, 2-7-53, p. 14
producer, what can be done to improve conditions of, 4-4-53, p. 28
requirements in ice cream and frozen desserts, 4-4-53, p. 71
CCC bins monuments to failure, are, 6-20-53, p. 28
claims corn was not dumped, 3-7-53, p. 30
put corn, where will, 4-18-53, p. 24
Cakes for daddy, 12-5-53, p. 1
Calendar, poultry, 6-6-53, p. 45
Calf auction, "no money," 6-20-53, p. 50
from first breeding, chances are heifer will deliver, 12-5-53, p. 22
growth, detergents appear to depress, 1-17-53, p. 59
sales, feeder, 11-7-53, p. 18
situation, feeder, two sides to, 9-5-53, p. 32
slaughter in 1952, Iowa ranked eleventh in, 2-21-53, p. 75
Calories produced by one acre of corn, 12-5-53, p. 41
Calves, beef, gains made by, 12-19-53, p. 14
beef, sell or feed your, 9-5-53, p. 32
beef, which way for, 1-17-53, p. 28
daily milk ration for, 1-3-53, p. 20
dairy, pointers for raising, 2-7-53, p. 59
early, contest records show big advantage for, 10-3-53, p. 10
healthy, good care means, 3-7-53, p. 20
kept indoors, space needed for, 2-7-53, p. 36
not making gains, suggestion for, 1-3-53, p. 20
profit comes from feeding operation itself if you feed, 10-17-53, p. 14
twin, chance for, 2-7-53, p. 59
yearlings, older cattle? 10-17-53, p. 14
Calving date, higher gains by moving up, 10-3-53, p. 10
time, cause of high death rate at, 12-5-53, p. 22
Canada thistles, when to apply 2,4-D to, 6-6-53, p. 23
Cancer of eye of cattle appears as reddish mass, 3-21-53, p. 46
Cannibalism in poultry, causes of, 4-4-53, p. 34
Cantaloupes, good, suggestion for selecting, 7-18-53, p. 24
Captan, new fungicide, 4-18-53, p. 18
Carcass grading most accurate way to price hogs, 10-17-53, p. 61
Carp and buffalo spearing, new rule regarding, 4-18-53, p. 58
Cart on wheels beats basket on back for feeding cattle, 11-7-53, p. 20
Cattle and calves, slaughter total of (chart), 8-1-53, p. 9
beef, in distressed areas, number of, 7-18-53, p. 51
beef, outlook for, 7-4-53, p. 18
beef, top grades of, better prices in fall probably for, 8-15-53, p. 59
build up, numbers and slaughter for five years (chart), 3-21-53, p. 95
congress, dairy, at Waterloo, 11-7-53, p. 27
feeder, about one-third lower than last year, 11-7-53, p. 63
feeder day, I.S.T.C. Ames, July 15, 7-4-53, p. 33
feeder, in good supply, 10-17-53, p. 83
feeder, plenty, in next few years, 8-1-53, p. 9
feeder should do, what, 10-3-53, p. 43
feeder, what price for, 8-15-53, p. 10
feeders day at I.S.T. July 15, 7-4-53, p. 33
feeders day, Indiana, April 24, 4-4-53, p. 72; 4-18-53, p. 63
feeders, direction not clear for, 6-20-53, p. 54
feeders, regular, can get credit, 9-5-53, p. 7
feeding, four choices on, 1-17-53, p. 28
feeding plan, check your, 4-18-53, p. 22
feeding profits, price margin necessary for, 9-19-53, p. 36
feeding tests, found antibiotic valuable for cattle in, 11-7-53, p. 20
feeding year ahead, big, 9-5-53, p. 79
feeding year, good, chances of, 11-21-53, p. 10
fewer, being corn fed, 11-21-53, p. 48
gains, for cheapest, 9-5-53,, p. 30
grain-fed, beef per person down less than numbers of, 12-19-53, p. 30
grain fed, in smaller supply next year, 12-5-53, p. 55
heavy marketings on, appear due balance of year, 11-7-53, p. 63
grain-fed, time to ship, 8-15-53, p. 34
heavy, must be shrewd buyer to make money feeding, 10-17-53, p. 14
if you buy, 8-1-53, p. 9
long-fed, higher prices not indicated for, 11-7-53, p. 63
lower grades of, some seasonal rise expected in 1-17-53, p. 59
marketing and slaughter, how tell what's ahead in, 8-1-53, p. 9
marketing intentions higher than October year ago, 10-3-53, p. 79
marketing intentions point toward price weakness 12-5-53, p. 55
marketings expected to be up, 3-7-53, p. 86
marketings, Iowa, February, 2-7, 53, p. 64
markets, corn belt farmers watch, 7-18-53, p. 7
new feeder, keep away from other cattle, 10-3-53, p. 18
numbers at end of year (chart), 8-1-53, p. 9
numbers, big, some people scared of, 3-21-53, p. 95
numbers, near peak in, 8-1-53, p. 9
on feed and to be marketed above year ago, total, 8-15-53, p. 99
on feed, spring poor time to put
low quality, 4-18-53, p. 38
peak may come in January 1955, 5-16-53, p. 58
plain, first to move out of drouth areas, 8-1-53, p. 24
price declines, factors indicating possible, 8-15-53, p. 10
price declines in store for, 2-21-53, p. 38
prices, feeder, next fall, guesses on, 4-18-53, p. 79
prices go up or down, will, 1-17-53, p. 58
prices next feeding season, 8-1-53, p. 55
prices reached bottom, factors indicating, 8-15-53, p. 10
prices, story of, 10-3-53, p. 42, (chart)
prices, weather combinations affect, 7-4-53, p. 39
problem most acute in next few years, 8-1-53, p. 55
prospects, here's look at, 11-21-53, p. 10
receipts, fat, not down, reason why, 12-19-53, p. 30
replacement, farmers bought fewer, 11-7-53, p. 63
selling prices for, "break even," 10-17-53, p. 14
shipment from Schleswig, Iowa, 11-21-53, p. 49
shipments, feeder, down about one-fourth, 12-5-53, p. 55
show and sale, feeder, Chicago, Oct. 29-30, 10-17-53, p. 71
show at Spencer, 10-3-53, p. 59
situation, how corn belt farmers feel about, 7-18-53, p. 7
slaughter in 1952, Iowa ranked third in, 2-21-53, p. 75
slaughter, too sharp boost in, 11-21-53, p. 48
takes sharp practiced eye to judge, 8-1-53, p. 24
they made money on, 5-2-43, p. 5
this year, more, 2-21-53, p. 1
western, how feed corn to, 11-7-53, p. 20
what happens next to, 10-3-53, p. 42
will be marketed in August, expect larger percentage of, 8-15-53, p. 99
yearling, price margins play big part determining profit or loss feeding, 10-17-53, p. 14
Cattlemen's Ass'n convention, Am. Nat'l, Colorado Springs, 12-5-53, p. 47
Cedar rust disease on evergreens, evidence indicating, 6-20-53, p. 14
Cement, store, in dry place, 8-15-53, p. 34
Champions aren't important, 2-21-53, p. 34
Chemical controls effective for most farm insects, 3-7-53, p. 28
new, for seed treatment, 4-18-53, p. 18
treatment in weed control program, if you use, 3-7-53, p. 38
treatment shortly after planting, may help problem fields, 3-7-53, p. 38
Chemicals, brush-killing, applied with paint brushes, 7-4-53, p. 12
still kill most flies, 4-4-53, p. 16
Chickens, dressing, hints on, 9-5-53, p. 30
Chicks, baby, air conditioner saved, 6-6-53, p. 32
fewer, this year, 4-4-53, p. 1
good start, give, 2-7-53, p. 8
Chinch bugs might cause trouble, 2-21-53, p. 36
Chlordane controls most types of ants, 1-17-53, p. 31
Cholera hits your pigs, if, 3-21-53, p. 34
immunity in pigs may break down under drastic conditions, 6-6-53, p. 23
vaccinated for, with new vaccines, sale barn will not take hogs 5-16-53, p. 26
vaccination time, avoid pig operations at, 6-6-53, p. 23
Chore box, 2-21-53, p. 12
time, ideas that save, 12-5-53, p. 11
Chores time, cut, 2-7-53, p. 9
Christian rural fellowship, Iowa, new officers of, 2-21-53, p. 75
Churches receive community service awards, 2-21-53, p. 75
Chute for feeding hogs, 12-19-53, p. 24
for vaccinating and marketing cattle, 10-17-53, p. 28
homemade, prevents wasting grain, 3-21-53, p. 16
Cigarette taxes increased, 5-16-53, p. 24
Circuit, one, not have more than 250-watt heat lamps, 3-7-53, p. 48
Clover fields, red, best time to harvest, 6-20-53, p. 40
fields, red, best when weed free, 7-18-53, p. 24
Ladino, best legume for hog pasture, 2-7-53, p. 34
Ladino, check protein value of, 3-21-53, p. 54
Ladino, makes good hog pasture, 3-7-53, p. 16
red, for seed, save, 6-20-53, p. 40
seed supply, red, below last year, 11-7-53, p. 63
stand, sweet, weevils can wreck, 4-18-53, p. 37
stands shielded by thistles and oats when sprayed, 6-20-53, p. 14
Clutch, foot on, bad practice in car or tractor, 5-2-53, p. 16
Coal mine spoil banks may produce pasture or lumber, 3-21-53, p. 52
Cob in ground ear corn is good roughage, 2-7-53, p. 43
Cobs and stalks for bedding, 10-3-53, p. 20

## Corn

Corn acreage allotments likely, 12-19-53, p. 7
acreage cuts in 1954, latest news on, 9-19-53, p. 24
acreage, would you cut, 5-16-53, p. 39
acres? cut, 5-16-53, p. 39
acres indicated to be down slightly, 4-4-53, p. 83
acres, when you cut, 10-3-53, p. 16
acres? will Benson cut, 12-5-53, p. 18
crops comin', 9-5-53, p. 1
crop, 1953, Iowa, estimated yield of, 11-7-53, p. 53
crop, this year's, heat greatest threat to, 7-18-53, p. 1
crop, U. S., estimated, 9-19-53, p. 90
cultivating, main points in, 6-6-53, p. 23
cultivation, things to avoid in, 6-6-53, p. 23
cut? will Benson order, 10-17-53, p. 26
disease found in Iowa fields, 1-17-53, p. 54
diseases, common, 8-1-53, p. 16
down to 13 or 14 percent moisture can be stored, 1-3-53, p. 20
dry, home-made wagon to, 8-15-53, p. 18
drying, crib for, 9-19-53, p. 34
ear or cob rots in, best means of fighting, 8-1-53, p. 17
ear, shelled, ground, moisture content to keep, 11-7-53, p. 20
ear, to check for high moisture or spoilage, 4-4-53, p. 34
elevators or high implements, suggestion for moving, 12-5-53, p. 22
farmers feel about marketing quotas, poll asked how, 8-1-53, p. 44
farmers satisfied after resealing, 6-20-53, p. 12
fed as shelled corn vs. corn made into silage, 10-17-53, p. 18
fed as silage makes more beef than corn fed as corn and cob meal, 7-18-53, p. 24
fed to cows for milk, calories for human consumption when, 12-5-53, p. 41
feed crops may smother, 9-19-53, p. 24
fertilized, looks best, 10-3-53, p. 14
fields for silage should be drilled instead of checked, 5-2-53, p. 16
allotments appear certain, 9-5-53, p. 26
allotments certain, 8-1-53, p. 43
allotments on the way, guessing, 12-5-53, p. 18
and all feed grains in clean-up campaign, 5-16-53, p. 71
and beans, planting dates for best yields of, 5-2-53, p. 16
and beans round and round, planting, advantages and disadvantages of, 5-2-53, p. 16
and beans, cultivate, 6-6-53, p. 38
and hay compared in feed values, 12-5-53, p. 55
and livestock advisory committees conferred with Secretary Benson, 3-21-53, p. 85
bacterial wilt disease in, symptoms of, 8-1-53, p. 16
below 15½ percent moisture, lose money on, 1-3-53, p. 20
borer is threat in Illinois, 5-16-53, p. 29
borer numbers increased last year, 2-21-53, p. 36
borer numbers up a little, 5-16-53, p. 28
borer still a threat, 2-21-53, p. 36
borers, corn cobs usually contain some, 11-21-53, p. 25
borers, jointer-equipped plows bury more, 3-21-53, p. 46
borers live thru winter in corn stalks, 10-17-53, p. 18
borers, watch second brood, 7-4-53, p. 30
can be stored safely for four years,, 9-5-53, p. 30
can replace oats in sows' ration, 10-17-53, p. 18
can take dry weather, 9-5-54, p. 9
check, read instruction book if you, 5-16-53, p. 29
checked, only benefit of last cultivation of, 6-20-53, p. 14
cobs, cheap gains from, 7-18-54, p. 29
cobs for cattle feed should be finely ground, 2-7-52, p. 36
cobs for feed, grind fine, 12-19-53, p. 14
cobs, ground, can stretch roughage supplies, 11-21-53, p. 25
cobs, ground, for bedding instead of straw, 3-21-53, p. 46
cobs, ground, used for bedding down hogs, 10-3-53, p. 20
cobs prevent over-eating and danger of founder, 11-7-54, p. 29
cobs usually contain some live corn borers, 11-21-53, p. 25
cobs worth more for bedding and manure than for fuel, 10-3-53, p. 20
cobs worth something for fertilizer and soil improvement, 9-19-53, p. 36
crib ends should be tight for forced air drying, 9-5-53, p. 30
crib foundation requirements, 8-15-53, p. 34
cribbed too wet, forced ventilation may save, 10-17-53, p. 18
cribs, cross bracing in, a disadvantage if corn dried by forced air, 10-3-53, p. 18
crop, Iowa, estimated ,9-19-53, p. 90
floor boards under, methods of supporting, 10-17-53, p. 18
fodder, how to make best use of, 12-5-53, p. 7
for less, can you grow, 2-21-53, p. 5
for silage, best time to cut, 9-5-53 ,p. 30
"free" less plentiful than expected, 10-17-53, p. 83
"free, might be more plentiful next December, 12-19-53, p. 30
government storage space available for ,9-5-53, p. 20
grade raised by clean shelling, 9-5-53, p. 30
ground ear, safest feed for starting cattle, 11-7-53, p. 20
ground ear, for cattle, 2-7-53, p. 43
half dented, has 65 percent of dry matter it will have at maturity, 9-5-53, p. 30
harrow, best time to, 5-16-53, p. 34
harvest wasn't fun, 11-7-53, p. 1
has to be resealed, how much, 9-5-53, p. 20
hog price ratio (chart), 10-17-53, p. 7
hog ration for Iowa (chart) 4-4-53, p. 83
how much, do you leave behind? 10-3-53, p. 7
husks used as bedding for hogs, 10-3-53, p. 20
hybrid, held up in dry weather, 9-5-53, p. 9
hybrid, improves, 2-7-53, p. 62
in storage January 1, 1953, 2-21-53, p. 75
insects, how to sidestep, 3-7-53, p. 28
a good bet, 3-2-53, p. 1
is graded, how, 10-17-53, p. 59
late planted, disadvantages of, 4-18-53, p. 26
left per acre by corn picker, to estimate, 11-7-53, p. 20
legume seeds, is USDA trying to unload stocks of, 6-20-53, p. 26
loan, good, how much in acreage cuts for, 10-3-53, p. 16
loan helped prevent violent changes in price, 3-21-53, p. 28
loan in danger, 8-1-53, p. 10
loans and corn prices (chart), 3-21-53, p. 28
loans and purchase agreements available until May 31, 2-21-53, p. 46
loans held at 58 percent or more, most Iowa farmers want, 10-3-53, p. 16
loans, what's happening to, 8-6-53, p. 13
loss, keep corn cribs free from rats to avoid, 2-7-53, p. 36
made into silage showed gain of 50 percent over corn fed as shelled corn, 10-17-54, p. 18
makes most money per acre, 4-18-53, p. 20
market sensitive to weather, 4-18-53, p. 79
maturing weather, best, 8-15-53, p. 14
may be available to livestock feeders, 6-20-53, p. 47
more, for hilly land, 3-21-53, p. 76
more, for worms pigs, 10-17-53, p. 62
more, in rotation, 3-21-53, p. 77
more, means more hogs, 4-7-53, p. 68
more, starter fertilizer for, 3-21-53, p. 32
more, with contour listing, 3-21-53, p. 77
mulch, use manure for, 4-18-53, p. 27
mulching, with straw or strawy manure got favorable report, 5-16-53, p. 34
must be planted thicker in rows up to 60 inches wide for high yields, 4-18-53, p. 38
new, may grade No. 2, 10-17-53, p. 83
1952, ask USDA to get more bins for, 6-20-53, p. 28
northern leaf blight disease in, wet, cool weather causes, 8-1-53, p. 16
oats, alfalfa-hay, amount of protein in, 11-21-53, p. 25
off ground, put floor under corn to keep, 10-17-53, p. 18
on pasture, best method of limiting, 8-15-53, p. 58
on the ground, 11-7-53, p. 9
100-bushel, you can grow, 4-4-53, p. 5
pays its way, resealing, 6-20-53, p. 12
picked late, field losses can be heavy if, 10-3-53, p. 7
Cornpicker, carefully inspect chains, bearings, and grease fittings on, 10-3-53, p. 18
last cultivation of checked corn makes rows smooth for, 6-20-53, p. 14
picker properly, handle, to keep field loss low, 10-3-53, p. 7
picker, 6 or 8 end rows along corn fields make turning easier with, 5-2-53, p. 16
picking, early, allows time for drainage or soil saving work, 11-7-53, p. 20
planted at right time means higher yields, 4-18-53, p. 26
planted thicker in 1953 and more fertilizer used, 10-3-53, p. 34
planter dropping right number of kernels, field check to know if, 5-2-53, p. 16
planting, bad weather predicted for, 5-16-53, p. 70
planting, thicker, adequate fertility, 9-5-53, p. 9
planting, when to start, 4-18-53, p. 26
plowed with double-shovel, 5-2-53, p. 42
preferred over beans on sloping fields, 5-2-53, p. 16
price, protect by signing purchase agreement with PMA, 4-18-53, p. 38
prices at loan value, drouth scare could put, 4-4-53, p. 83
prices, "free," may be lower than last year, 9-19-53, p. 90
prices may be on same level for next feeding season, 8-1-53, p. 55
prices may be weak for a while, 4-4-53, p. 83
prices predicted next spring, 11-21-53, p. 62
prices, weather a factor in making, 12-19-53, p. 30
production quotas for, discussion regarding, 11-7-53, p. 16
prospects biggest in cash grain areas, 9-19-53, p. 90
redeemed, pay storage on, 10-17-53, p. 62
resealed, in Iowa gets low tax rate, 11-21-53, p. 25
resealed, storage payment made on, 12-19-53, p. 14
resealed, will get storage payment on, 10-17-53, p. 62
resealing, advantages in ,5-16-53, p. 7
resealing, farmers ask about, 7-18-53, p. 29
resealing hits rapid stride, 9-19-53, p. 24
reserve of billion bushels, argument for, 8-1-53, p. 10
reserve of billion bushels recommended by NPA, 6-6-53, p. 7
reserve should be carried over every fall, how much of a, 8-15-53, p. 76
reserve, small, argument for, 8-1-53, p. 10
reserves be, how big should, 8-1-53, p. 10
reserves be turned on market, when should, 8-15-53, p. 76
rootworm threat to corn crop, 3-21-53, p. 14
rough job of plowing land for, may be better than smooth job, 9-19-53, p. 38
row widths 40 to 42 inches, plant 5 percent more stalks per row if, 5-2-53, p. 16
rust disease in, 8-1-53, p. 16
safe, is, 4-18-53, p. 5
seal, to cut building costs, 8-15-53, p. 62
sealed, delay in delivery of, definite possibility, 7-18-53, p. 51
sealed, not enough bins to hold all, 7-18-53, p. 29
sealed, slow delivery for, 9-5-53, p. 20
sealing, during May, moisture limits for, 4-8-53, p. 38
seed, held-over, use for latest planting, 4-18-53, p. 38
seedbed for, plowing best way to prepare, 3-21-53, p. 76
seedling diseases in, 8-1-53, p. 16
shelled and ear, with over 18 percent moisture, may mold, 4-18-53, p. 38
shelled, in bins, strong for farm storage of, 6-6-53, p. 10
shelled, watch for insect infestation or damage from excessive moisture, 2-21-53, p. 46
silage, how to feed, 11-21-53, p. 7
smut disease in, 8-1-53, p. 17
soft, not problem this year, 7-4-53, p. 59
stalk fields may contain enough corn to founder cattle, 10-17-53, p. 18
stalk pasture, to get most value from, 10-17-53, p. 18
stalks, bale, for bedding, 12-5-53, p. 16
stalks, chopped, used for bedding, 10-3-53, p. 20
stalks low in minerals, 10-17-53, p. 62
stalks per acre, good planting rate is 15,000, 5-2-53, p. 16
stalks per acre in corn fields, to find out how many, 5-16-53, p. 34
stalks per acre, planting suggestion to get 11,500, 5-2-53, p. 16
stalks turn under best, how, 4-4-53, p. 34
stands, best, tests regarding, 12-5-53, p. 26
stands, thick, need high levels of fertility, 9-5-53, p. 9
storage and resealing situation, 6-20-53, p. 12
storage problem, suggestion on, 8-15-53, p. 62
storage situation, 5-16-53, p. 7
storage space, Iowa farmers need, 8-1-53, p. 19
storage units, costs for, 8-15-53, p. 34
supplies at high point, 4-18-53, p. 24
supplies shifting up and down, 3-17-53, p. 28
supplies up, 2-7-53, p. 75
sweet, can be dried and kept for long periods, 11-21-53, p. 50
thick planting for, arguing about, 12-5-53, p. 26
thin stands, will not produce top yields, 5-2-53, p. 16
to hold, how much, 6-6-53, p. 16
to replace oats as nurse crop, 3-7-53, p. 42
to store, how much, 8-15-53, p. 76
varieties for 1952, top ranking, 2-21-53, p. 20
volunteer, may be nuisance in bean fields, 2-21-53, p. 46
weather now, what's good, 8-15-53, p. 14
weeds, get, with first cultivation, 5-16-53, p. 18
western corn belt has record supplies of, 5-2-53, p. 63
what to do with, 5-16-53, p. 7
where to put, 8-15-53, p. 12
where to store, 4-18-53, p. 24
will keep if down around 15 percent moisture when cribbed, 11-21-53, p. 25
with more than 20 percent moisture not safe to crib in October, 10-17-53, p. 18
without a roof loses quality rapidly, 3-21-53, p. 46
without live pollen, 11-7-53, p. 33
yield test, test fields for (map), 2-21-53, p. 20
yield with legumes seeded between rows, 3-7-53, p. 42
yields better than expected, 10-17-53, p. 16
yields held down by lack of phosphate, 3-7-53, p. 15
yields high, fertilizer keeps, 11-7-53, p. 12
yields, poor, and stalk purpling, cause of, 1-3-53, p. 20
yields, top, depend on good weed control, 5-16-53, p. 18
Cornpicker accidents, 1952 Iowa, 10-17-53, p. 10
Cornpicking contest, Iowa mechanical, Marengo, 10-17-53, p. 71
contest, mechanical, winners of, 11-7-53, p. 53
contest, national, mechanical, Bloomington, Ill., 10-17-53, p. 71; 9-19-53, p. 67
County agent? who bosses your, 5-16-53, p. 26
Cow paths can ruin grassed waterways, 10-3-53, p. 18
Cows, beef, without grain, how to keep, 11-7-53, p. 20
dry up prematurely if all milk is not taken when milked, 11-21-53, p. 25
fall freshening, give most milk, 11-21-53, p. 25

Farm Bureau Federation membership goal for 1954, 10-17-53, p. 71
Farm Bureau Federation will sponsor dairy clinic, 5-16-53, p. 60
goes to Chicago, 12-19-53, p. 10
State college survey, Iowa and Illinois farmers show different views in, 11-7-53, p. 16
Veterinary diagnostic laboratory handled record number of cases, 7-18-53, p. 46
Iron from discarded machinery can be used, 1-17-53, p. 16
Jack, universal speed, made by Emil Nemec, 8-15-53, p. 20
Jaw of his calf, swelling on, 5-16-53, p. 57
Jobs clash, June, 6-6-53, p. 1
before winter, 10-17-53, p. 18
spring, this fall, do, 10-8-53, p. 28
to get done in September, 9-5-53, p. 30
Judges at international livestock exposition, eight Iowans named, 11-21-53, p. 49
Keys that hold cog or sprocket wheels should not stick out, 2-21-53, p. 46
Kildee, honor to, 1-3-53, p. 51
Killed, 56 Farm people, 5-16-53, p. 56
Kilowatts, emergency, 2-21-53, p. 46
Kit, first aid, take on vacation trip, 8-1-53, p. 24
Kitchen convenience, self arrangement important for, 7-18-53, p. 24
Knotholes can be prevented, 2-7-53, p. 36
Knuckles, skinned, how to prevent, 5-2-53, p. 16
Korea, what to do next in, 4-18-53, p. 34
ambassador to U.S., Dr. You Chan Yang, 5-2-53, p. 55
Krilium, Iowa State college tests on, 3-7-53, p. 69
LP- gas or gasoline, operations costs of, 8-1-53, p. 21
Labor, farm, not plentiful, 3-17-53, p. 34
saved in pig raising by self feeding, 4-4-53, p. 34
Lactometers measure specific gravity of milk, 8-15-53, p. 77
Ladder, safe way to set, 7-4-53, p. 12
16-foot, safety set for, 8-1-53, p. 15
Ladino clover rates tops for hog pasture, 7-4-53, p. 7
to get good stand of, 3-7-53, p. 16
Lamb and wool congress, Omaha, 5-2-53, p. 55; 5-16-53, p. 60
crop bigger this year, 12-5-53, p. 55
feeders' day, Iowa, February 7, 2-7-53, p. 64
price rise in prospect, 1-17-53, p. 59
prices should improve moderately, 2-21-53, p. 38
slaughter in 1952, Iowa ranked second in ,2-21-53, p. 75
Lambs, fat, most in demand, time when, 12-5-53, p. 22
fewer, going on feed than year ago, 12-5-53, p. 55
more, from your ewes, 10-3-53, p. 36
Lamps, heat hang 6" higher than sows back, 3-7-53, p. 48
heat, in farrowing pens fire danger, 3-21-53, p. 46
Lantz, Simon E., died December 27, 1-17-53, p. 57
Lard and butter, hard to sell, 1-17-53, p. 14
and tallow too low, 3-21-53, p. 84
price pushed up by government purchases for eastern Germany, 10-3-53, p. 79
prices broke sharply after mid-September, 10-3-53, p. 79
problem, we're not licking, 2-21-53, p. 12
production, report on, 2-21-53, p. 12
Lawn, don't sprinkle, soak it, 6-20-53, p. 46
Laws, new, affect Iowa farmers, 5-16-53, p. 24
Lease, better, you can make a, 10-17-53, p. 58
Leases, farm, Iowa, notification date for ending, 8-15-53, p. 34
share, for moneyless men, 11-21-53, p. 18
Legislators, hire help for, 1-17-53, p. 26
Legume crop plowed under, nitrogen supplied by, 2-7-53, p. 36
mixtures can be left down for hay or pasture, 3-7-53, p. 56
seeds safely held for three to four years, 12-5-53, p. 22
stands, aphids, weevils wreck, 6-6-53, p. 22
Legumes and corn together, grow, 3-7-53, p. 42
grow, on stripped land, 3-21-53, p. 52
Leptospirosis attacks cattle, hogs, and sheep, 12-5-53, p. 22
can cause abortion, 2-7-53, p. 84
symptoms of, 4-4-53, p. 41
Lice and mites in poultry flock, suggestions for controlling, 11-21-53, p. 23
on livestock destroyed in winter best by sprays or dips, 12-5-53, p. 22
scab or mange, mixture suggested for controlling, 2-21-53, p. 14
solution for killing, 8-1-53, p. 24
Licenses, graded, for drivers, 2-21-53, p. 81
Licensing fee, new, 4-18-53, p. 58
Lifting practice, correct, 7-18-53, p. 24
Lightning, fences should have ground wires to protect livestock from, 7-4-53, p. 12
rods need proper installation to protect buildings, 6-20-53, p. 14
Lime, hydrated, for poultry house floors, 8-15-53, p. 36
Lindane injections kill flies, 2-7-53, p. 39
Litter, built-up, coccidiosis less likely in ,12-5-53, p. 22
in poultry houses, suggested depth for, 12-19-53, p. 14
of pigs weighed almost 2½ tons at six months, 2-21-53, p. 81
wet, in poultry houses, reasons for, 12-19-53, p. 14
Livestock and land institute, Albert Lea, 8-1-53, p. 46; 8-15-53, p. 84; 9-5-53, p. 65; 9-19-53, p. 67
Benson has hopes for, 2-21-53, p. 32
disease bills up, 2-21-53, p. 22
disease carriers include, what., 6-6-53, p. 23
diseases costly to farmers, 1-3-53, p. 52
exposition, international, Chicago, November 28-December 5, 11-7-53, p. 53; 11-21-53, p. 49
feeders day, Missouri, Columbia, 2-21-53, p. 75; 3-7-53, p. 85; 3-21-53, p. 85; 4-4-53, p. 72; 8-1-53, p. 46
losses in shipment can be caused by trucks in poor condition, 11-21-53, p. 25
program, human element can play big part in success of, 2-21-53, p. 76
transportation, consider condition of truck, driver's habits when hiring, 11-21-53, p. 23
Loading chute, ridged concrete, 11-7-53, p. 28
Loan farmers, extra million to, 5-4-53, p. 14
Lots, paved, save you money, 9-19-53, p. 40
Loyalty oath vetoed by Governor Stratton, 8-11-53, p. 11
Lumber, what, for farm buildings, 9-19-53, p. 43
Lump jaw, treatment for, 5-16-53, p. 57
Lunches, school, do you vote for, 2-21-53, p. 8
McLain, Marvin, appointed to agricultural advisory commission, 3-7-53, p. 85
McCorkle moves, J. R., 3-7-53, p. 98 to Washington, 8-1-53, p. 11
M.D.'s Say, Iowa, 11-7-53, p. 31, 11-21-53, p. 51; 12-5-53, p. 41
Machinery dealer, farm, services expected from, 9-5-53, p. 13
farm, check, in February, 2-7-53, p. 36
grandpa's, 7-18-53, p. 22
new, should be checked before operating, 2-21-53, p. 87
repair jobs, good equipment makes quick work of, 12-5-53, p. 20
should be checked and repaired in February, 2-21-53, p. 9
Machines for spring going-over, how to prepare, 2-21-53, p. 46
show farm trend, 9-19-53, p. 22
Mail, how often do you get, 2-21-53, p. 82
Man, hired, how to keep your, 3-21-53, p. 56
Manure, contents of one ton of, 1-3-53, p. 20
crops, green, don't add anything to soil until six inches high, 4-18-53, p. 38
crops, green, what for, 3-7-53, p. 56
early cleanup, health measure, 8-15-53, p. 34
hauling should be one of first fall jobs, 8-15-53, p. 44
pays off in bigger yields, 8-15-53, p. 46
plant food per ton in, 8-15-53, p. 46
produced annually by one dairy cow, 1-3-53, p. 20
save, save money, 8-15-53, p. 46
save the value of, 2-7-53, p. 16
use, for corn mulch, 4-18-53, p. 27
Map of Iowa state fair grounds, 8-15-53, p. 86
of your farm for better managing, make, 10-17-53, p. 39
Marketing quotas do, what, 7-18-53, p. 16
quotas on corn, against, 8-1-53, p. 43
Master Farmer awards, Iowa, men who won, 4-18-53, p. 5
Farmer Club of Iowa, elect officers, 10-17-53, p. 71
swine producers, twenty-five new, 1-3-53, p. 51
Mastitis control, suggestions for, 2-7-53, p. 32
increases milk cost, 3-7-53, p. 48
milk unfit for use if drugs used in treating cows for, 9-5-53, p. 30
strip cups detect, 3-7-53, p. 48
suggestions for preventing reoccurrence of, 1-3-53, p. 20
treat dry cows for, 4-18-53, p. 31
trouble in your herd? 2-7-53, p. 32
Meadows, good rule to follow for, 10-17-53, p. 58
Meat, animal show, Waterloo, October, 23-24, 10-17-53, p. 71
fresh tests in, to keep, 1-3-53, p. 20
value of hog, how to judge, 10-17-53, p. 61
Meats, suggestion regarding cooking of, 10-3-53, p. 18
Medicine cabinet, suggestions for keeping a, 6-6-53, p. 23
Membership quota, Farm Bureau, quota met in, 2-7-53, p. 44
Men, hired, get discouraged, 1-3-53, p. 28
Meser, Dwight W., new chairman of Iowa's PMA committee, 8-1-53, p. 11
Midwest bereford day, 6-20-53, p. 50
Milk, concentrated, advantages of, 8-1-53, p. 14
consumption, fluid, up slightly, 6-6-53, p. 36
consumption, try to expand, 3-21-53, p. 76
costs, to cut, 12-5-53, p. 48
cow must produce more, to pay her way, 6-6-53, p. 26
fluid, is supported, how, 2-21-53, p. 82
grade A, minimum butterfat content in, 4-4-53, p. 77
high priced equipment cut cost of producing, 2-21-53, p. 36
law, market, amend, 8-21-53, p. 81
more, mild winter, 2-21-53, p. 79
off-flavor, avoid, 8-15-53, p. 58
off flavor in, to prevent, 7-4-53, p. 12
payment plans company, how, 1-3-53, p. 44
prices in big cities, try to lower, 2-21-53, p. 32
production, cut cost of, 2-21-53, p. 36
production, lower, hopes for, 3-21-53, p. 70
replacer for calves? 12-5-53, p. 27
routes for farm customers, 8-1-53, p. 14
shed swamped with greatest spring flush in history, 6-6-53, p. 36
skim, are you paid for, 1-3-53, p. 44
sugar has growth producing effects on young animals, 4-18-53, p. 67
synthetic, in dry form, 5-2-53, p. 51
unfit to use if drugs used in mastitis treatment, 9-5-53, p. 30
Milking cost, can you cut your, 8-15-53, p. 26
exact timing important in, 11-21-53, p. 23
machine for six-cow herd, cost of 8-15-53, p. 26
machines, electricity used by, 9-5-53, p. 20
Minerals, trace, increased gains with feed fortified with, 9-19-53, p. 12
Missouri Farmers Ass'n annual meeting, Columbia, 8-1-53, p. 46
Moisture in hog house may result of poor ventilation, 2-21-53, p. 16
on hog and poultry house walls means poor ventilation, 1-17-53, p. 16
Molasses, add, if cattle won't eat poor roughage, 12-19-53, p. 14
doped with insecticide used to kill DDT resistant flies, 1-3-53, p. 79
feed value of, 10-3-53, p. 7
Mole trips moved to another way if no catch within one day, 6-6-53, p. 23
Money, borrowing, caution in, 1-17-53, p. 83
policy stabilized, helpful to farmers, 7-18-53, p. 51
went? wonder where ,10-3-53, p. 30
Mortensen, Martin, died May 15, 4-4-53, p. 72
Motor last longer, make your, 2-21-53, p. 36
Motors, cold, warm room or garage saves wear on, 2-21-53, p. 46
cool running, waste fuel and wear rapidly, 7-18-53, p. 24
dependability, electric, suggestions for insuring, 3-21-53, p. 36
Movie, farm-made, 3-21-53, p. 10
Moving portable buildings, suggestion for, 1-17-53, p. 18
Mud, deep, use corn cobs, straw or spoiled hay for, 2-21-53, p. 46
Mudholes can spread disease, 5-2-53, p. 30
Musty smell in seed oats, to germination if, 2-21-53, p. 16
Nails, driving, pointers for, 3-7-53, p. 46
National Flying Farmers Ass'n meeting, Washington, D. C., 5-16-53, p. 60
Needle teeth, pigs' clip before day old, 3-7-53, p. 48
Neighbors, good, 11-21-53, p. 10
Nests play big part in egg quality, 3-7-53, p. 32
plenty of, means fewer eggs on floor, 9-19-53, p. 36
Nitrogen, apply, for corn, 5-16-53, p. 22
applied to land with corn cobs hastens decay of, 9-19-53, p. 56
by the gallon, buy your, 3-7-53, p. 28
extra, boosts corn yields, 5-16-53, p. 22
fertilize blue-grass, bromegrass and timothy with, 4-4-53, p. 34
in soil, corn makes better use of, 4-18-53, p. 20
mostly for small grains and grasses in seeding mixture, 2-21-53, p. 28
oats can be fertilized with, after 4to 6 inches high, 4-18-53, p. 38
shortage in pastures or corn fields, signs of, 7-18-53, p. 24
shortage, sodbound another name for, 6-6-53, p. 22
supplied if legume crop plowed under, 2-7-53, p. 36
Nest, key to, 4-18-53, p. 66
Nest soils for, 4-18-53, p. 66
Nesting service, Iowa State college, 12-5-53, p. 47
to apply, amount of, 3-21-53, p. 46
to oats, when to apply, 4-18-53, p. 38
Nse, and shift rotations, 1-3-53, p. 35
will carry over to following year, 2-21-53, p. 46
Nurse crop for legumes, flax is good, 3-21-53, p. 75
crop pay, make your, 9-19-53, p. 10
Nursery house for extra pigs, 3-21-53, p. 38
Nutrients used by bumper crop, replace, 2-21-53, p. 89
Nutrition conference for veterinarians, I.S.T., Sept. 10, 9-5-53, p. 65
Oak wilt disease, chemicals give promise of controlling, 12-5-53, p. 27
Oat crop this year, bad, reason for, 12-5-53, p. 22
varieties recommendedd for planting, 12-5-53, p. 10
varieties recommended for this year, 2-7-53, p. 56
variety, Clintland, offers new hope to corn belt growers, 12-5-53, p. 10
variety released, new, 12-5-53, p. 10
yields, key to bigger, 9-19-53, p. 10
Oats and alfalfa tested as feed ingredients in feed, 11-7-53, p. 23
badly rusted, falls more quickly than rust-free oats, 7-4-53, p. 12
be mudded in, should, 3-21-53, p. 16
best yielding, in Iowa State college oats variety tests, 7-18-53, p. 26
fire should be emptied, cleaned and sprayed before harvesting oats, 6-20-53, p. 12
for harvest, on Canada thistle infested fields, 3-21-53, p. 46
certified, plenty of 6-20-53, 8-1-53, p. 77
Clintafe, bred for resistance to crown rust, 7-18-53, p. 46
crop, small, will make no difference in total feed grain supplies, 8-15-53, p. 99
drill, in wide rows, 3-21-53, p. 81
drill or broadcast, 3-21-53, p. 52
farmers debating if they should quit planting, 10-3-53, p. 18
get more profit from, 2-7-53, p. 56
good time to buy, 6-20-53, p. 34
harvest, don't jump gun on, 8-1-53, p. 1
phosphate fertilized, cattle prefer, 4-18-53, p. 38
price indicators for, 6-6-53, p. 47
prices reach peak in January, 11-21-53, p. 62
seed, cleaned and treated do not contain weed seed, 3-7-53, p. 48

good, cuts cost of raising pigs, 3-7-53, p. 16
good legume, can cut grain required, 2-7-53, p. 34
in early spring, things to do for, 2-21-53, p. 74
or hay, need, 6-6-53, p. 40
overgraze, if you expect to tear up and reseed, 9-5-53, p. 30
saves corn in fattening cattle, 8-15-53, p. 58
Pastures, clip, if weeds not gone to seed, 8-1-53, p. 24
two weeks delay turning cattle on, may save feeding dry feed, 4-18-53, p. 38
birdsfoot trefoil for, 3-21-53, p. 20
high-profit crop, fertilizer and good management can make, 2-21-53, p. 74
ready to work, put, 8-15-53, p. 89
permanent, Birdsfoot trefoil recommended for, 3-21-53, p. 21
producing, bluegrass to keep, 12-19-53, p. 14
renovated, boost forage yields, 8-15-53, p. 89
renovated, stretch grazing season, 8-15-53, p. 89
rotation, more good from, 7-18-53, p. 12
sod-bound, need nitrogen, 2-21-53, p. 85
Paved feedlots, advantages of, 9-19-53, p. 40
Perishables are surplus crisis, 3-7-53, p. 30
don't expect help on, 1-17-53, p. 24
Pet parade, Dallas Center, Iowa, business men sponsor, 7-18-53, p. 14
Pheasant's, suggestion for hunting, 6-20-53, p. 47
Phone, listen when you, 2-21-53, p. 68
Phosphate applications increases clover and alfalfa hay yields, 4-4-53, p. 34
fertilize, alfalfa or clover stands with, 4-4-53, p. 34
may stimulate legume seeding and interfere with oats crop, 2-21-53, p. 46
most common fertilizer needed by small grains and legumes, 2-21-53, p. 28
one field in three needs extra, 3-7-53, p. 15
Phosphorus in soil, test to determine amount of, 10-17-53, p. 64
Picker-shellers save on labor and storage space, 9-5-53, p. 24
what they say on, 9-5-53, p. 24
work best when corn has 23.5 percent moisture, 10-17-53, p. 18
Pig arrivals, spring, off schedule in April, 6-6-53, p. 47
crop cut again by U. S. farmers, 7-4-53, p. 35
crop increase, spring, estimated from 5 to 10 percent, 12-19-53, p. 30
crop next spring expected to increase about 12 percent, 11-7-53, p. 63
crop report guide to hog production changes, 7-4-53, p. 39
crop, spring, expected climb in, 11-21-53, p. 48
crop, spring, to market ahead of schedule, 9-5-53, p. 79
crops for 1953, cut in, not reduce meat production below annual totals, 8-1-53, p. 55
crops, Iowa, since 1940 (chart), 7-4-53, p. 35
crops in Iowa and U. S. (chart), 7-4-53, p. 35
crops, usually go up after good hog year, 11-21-53, p. 29
disease costly to hog raisers, TGE is, 3-21-53, p. 77
diseases, baby, watch for, 4-4-53, p. 41
feeders, nine points for, 4-18-53, p. 12
feeding report on 14 years of, 4-18-53, p. 12
increase, spring, placed at less than 12 percent, 11-7-53, p. 63
Pig needs, sleeping and feeding space each, 9-19-53, p. 48
numbers, spring, 3-7-53,, p. 86
operations, avoid, at time of cholera vaccination, 6-6-53, p. 23
pasture, shade in, pays off in faster and cheaper gains, 6-20-53, p. 14
raising method, new, big claims made for, 3-21-53, p. 18
raising, self feed to save labor in, 4-4-53, p. 34
rations are most important, 5-16-53, p. 29
starter, benefits from feeding good, 2-21-53, p. 67
baby, need good starter, 2-21-53, p. 67
baby, should not get chilled, 1-3-53, p. 20
baby, to save more, 4-4-53, p. 41
best time to raise more, 6-20-53, p. 54
earlier, spring, Iowa farmers expect to market, 9-5-53, p. 12
early, in race against time, 7-4-53, p. 7
early or late, breed for, 9-19-53, p. 30
eating early, tell how they get, 4-4-53, p. 30
extra, synthetic sows' milk for, 3-21-53, p. 38
fall, at start, push, 8-15-53, p. 80
fall, good care for, 8-1-53, p. 20
fall, more, 5-16-53, p. 58
fall, should be full-fed, 11-21-53, p. 25
farrowed last fall made money, 6-20-53, p. 54
feed needs taste appeal, 4-4-53, p. 30
growing, important thing about, 5-16-53, p. 29
healthy, and fast gains, tested program for, 9-5-53, p. 43
healthy, fast-growing, antibiotics help produce, 3-7-53, p. 74
in cornfields lose ½ lb. day without protein supplement, 10-17-53, p. 18
late spring, aim for cheap gains for, 7-4-53, p. 7
late spring, best bet for, 7-4-53, p. 7
late spring, best for gleaning corn in, picked fields, 11-7-53, p. 20
litter of, made new world's record, 10-17-53, p. 59
litter of, trophy given for success with, 2-21-43, p. 81
little, clean dirt and sunshine good for, 4-18-53, p. 38
more, farmers to raise, 3-7-53, p. 68
of size should run together, 9-19-53, p. 36
175 lbs., for quick finish of, 9-19-53, p. 36
runty, make no money, 9-5-53, p. 43
self-fed, amount of feeder space per head for, 9-19-53, p. 36
spring, August or September, finish might bring more price advantage on, 4-18-53, p. 79
spring, good care for, 3-21-53, p. 9
spring, make money? 10-17-53, p. 7
spring, 1953, predicted price for 9-5-53, p. 12
spring, raise too many, 6-20-53, p. 22
stronger, proper care of bred sows and gilts means, 1-3-53, p. 18
thrifty, profit difference between poor doers and, 9-5-53, p. 43
to market, get your, in September, 9-5-53, p. 18
to market, push fall, 1-17-53, p. 18
to save more, 2-21-53, p. 95
unborn, a chance, give, 1-3-53, p. 18
weak, small litters, cause of, 12-5-53, p. 22
well cared for better able to resist disease, 4-4-53, p. 41
worm, tell how they, 3-7-53, p. 55
Pistons and rings in idle tractor need oil coating, 1-17-53, p. 18
Plant food, pure, why not,. 9-5-53, p. 35
foods, pure, why not, 2-21-53, p. 77
sprayed to kill lice, thoroughly wet under side of leaves when, 6-6-53, p. 23
Play and picnic area in your yard, whole family can enjoy, 8-15-53, p. 53
Plow contest, Illinois man wins, 10-3-53, p. 63
pulls harder with bad adjustment, 4-18-53, p. 38
when to, 4-4-53, p. 12
Plowed land, fall, vs. spring plowed land, 10-3-53, p. 18
Plowing, advantage of late fall, over spring plowing, 11-21-53 p. 25
contest, Missouri, state, Memphis, 8-1-53, p. 46
cost of, with a two and three-bottom plow, 4-18-53, p. 38
cost of, with two and three-bottom plows, 4-18-53, p. 38
fall, early, advantage of, 8-15-53, p. 44
spring, may be clods on, 4-4-53, p. 12
Plows, jointer-equipped, turn under corn stalks, 3-21-53, p. 46
Pneumonia, calf, cause of, 11-7-53, p. 26
dust in hogs, 5-16-53, p. 18
Poison ivy, how to recognize and kill, 7-4-53, p. 12
Poll, Wallace-Homestead, 1-17-53, p. 54; Ed., 2-7-53, p. 6; 2-21-53, p. 8; Yellow vs. uncolored Oleomargarine, 2-21-53; p. 26; What to do about ACP payments, 3-7-53, p. 11; Want more war? 3-7-53, p. 12; Worming pigs, 3-7-53, p. 55; How old for dates? 3-7-53, p. 58; Raise more pigs, 3-7-53, p. 68; Don't want beer taverns, 3-7-53, p. 72; Vote for educational TV, 3-21-53, p. 5; Should government plan to support hog prices, etc., 3-21-53, p. 30; Do you vaccinate pigs for cholera, 3-21-63, p. 34; Are you planning to take a vacation, 3-21-53, p. 60; Baby sitters for young children, 3-21-53, p. 80; Coccidiosis trouble in raising chicks, 4-4-53, p. 18; Will it pay to borrow money for fertilizer? 4-18-53, p. 8; Best way to handle war in Korea, 4-18-53, p. 34; Draft deferments, 5-2-53, p. 10; Arrangement regarding county ext. director, 5-16-53, p. 26; Corn surplus and acreage cuts, 5-16-53, p. 39;Farm flocks make money? 5-16-53, p. 51; Average flock replacement, 6-6-53, p. 32; How big are pigs when weaned, 6-20-53, p. 8; resealing plans, 8-1-53; p. 19; How corn farmers feel about marketing quotas, 8-1-53, p. 44; What price for 1953 spring pigs? 9-5-53 p. 12; When will you sell spring pigs, 9-5-53, p. 12; Get good service on machinery? 9-5-53, p. 13; Farmers report on Ike and Ezra, 9-5-53, p. 38; Bill of rights, 9-19-53, p. 68; Which combination of loan rates and acreage cuts preferred, 10-3-53, p. 16; Prices higher, lower, or about same as now, 10-17-53, p. 8; Method getting rid supplies butter and cheese, 10-17-53, p. 12; How weed sprays being used, 10-17-53, p. 63; Speed on highways, 11-21-53, p. 8; In re social security for farm operators, 11-21-53, p. 12; Good move or poor move to abolish regional offices of SCS, 12-19-53, p. 8; Farms without milk cows, 12-19-53, p. 9
Pork clinic, Des Moines, June 9, 4-18-53, p. 63; 5-2-53, p. 55; 5-16-53, p. 60; 6-16-53, p. 36
clinic, plans for, 4-18-53, p. 63
cold storage holdings down from last year, 7-18-53, p. 51
current receipts of, under year ago, 7-18-53, p. 51

## Farm and Feed Lot

Alfalfa poor in wide corn rows, 10-17-53, p. 38
Animals exhibited at fair, isolation period for, 8-15-53, p. 90
Antibiotics feed to market weights, 4-4-53, p. 68
Boar sales, would regulate, 1-17-53, p. 50
Bonds, buy E or H, for machinery replacement, 1-17-53, p. 50
Breed sows back on third day, 3-7-53, p. 82
Brucellosis, law to prevent spread of, 1-17-53, p. 50
Cattle, cost $35 to put 100 pounds of gain on, 1-17-53, p. 50
top dairy, have another chance to compete for prizes, 9-5-53, p. 23
Clintafe seed oats distributed in Iowa, 10-17-53, p. 39
Cob rations, tested with hay, silage, 3-7-53, p. 83
Corn costs 78 cents per bushel to produce, 1-17-53, p. 50
1952, look for insects in, 9-5-53, p. 23
returns best, 2-7-53, p. 63
yields go up more than oats, 3-7-53, p. 84
Cow stalls larger, are favored, 11-7-53, p. 47
buy or sell, farm plan determines whether you should, 11-7-53, p. 47
Dairy show, announce new, 9-5-53, p. 23
Disease home from fair, don't take, 8-15-53, p. 90
Farrowing, multiple, gaining favor, 10-3-53, p. 58
Fertilizers in Minnesota, 2-21-53, p. 69
Fever, milk, warnings about, 11-7-53, p. 47
Fly killer, new, gets resistant flies, 10-3-53, p. 58
Height stand, adjustable, 3-7-53, p. 84
Hog disease spread by rats, pigeons, 2-21-53, p. 69
Hogs paid $1.16 on feed dollar, 10-17-53, p. 39
raised on clean pasture avoid hog diseases, 9-5-53, p. 23
Insects in 1952 corn, look for, 9-5-53, p. 23
Machine use, light, increases costs, 2-7-53, p. 63
Machinery cost reduced when used large number of days, 2-7-53, p. 63
Machines, farm, to meet cost of, 1-17-53, p. 50
Malathon, new fly killer, 10-3-53, p. 58
Oats crop, Texas storm hurt, 10-17-53, p. 38
new, to be distributed, 10-17-53, p. 39
overweight, in bin, measure, 3-7-53, p. 84
treat, always pays to, 3-7-53, p. 82
Pasture, clean sure way of avoiding hog diseases, 9-5-53, p. 23
Pastures need change too, 3-7-53, p. 83
Pigs, farrow, four times yearly, 10-3-53, p. 58
Pork, cost of producing 100 pounds of, 1-17-53, p. 50
Potato, improved, for northern Iowa, 10-17-53, p. 38
Production costs of crops, livestock, 1-17-53, p. 50
Rust, crown and stem, oats hit by, 10-17-53, p. 38
Seed, dead, in oats, beans, 3-7-53, p. 83
Silage, grass, fatten steers on, 11-7-53, p. 47
Smoke, exhaust, clue to some tractor troubles can be found in color of, 8-15-53, p. 90
Sodium fluoride, warning regarding, 4-4-53, p. 68
Soil sample, get an accurate, 8-15-53, p. 90
Soybeans cost $1.31 per bushel to produce, 1-17-53, p. 50
save labor, 2-7-53, p. 63
Terraces deductible, cost of, 11-7-53, p. 47
Texas storm made rust problem more serious, 10-17-53, p. 38
Tractor smoke helps spot trouble, 8-15-53, p. 90
Wean pigs early to save costs, 3-7-53, p. 82
Weeds, don't wait to kill, 6-7-52, p. 25
strength, fall growth gives, 8-2-53, p. 62
Worms, treating, avoid danger in, 4-4-53, p. 68

## Farm Flock

Air, fresh, hens need plenty, 2-7-53, p. 52
sac disease controlled by vaccination, 11-21-53, p. 39
stale, in brooder house, replace with fresh air, 4-18-53, p. 53
Antibiotics aid chick growth, 2-21-53, p. 65
Birds in laying flocks in June in Iowa, 8-1-53, p. 42
Blue comb disease, shade and water protect flock against, 7-4-53, p. 34
Broiler producers will increase production, predict, 2-21-53, p. 64
Bronchitis hits farm flocks, 8-1-53, p. 42
Brooder equipment should be cleaned and stored, 12-5-53, p. 39
heating unit before starting fire, check, 1-3-53, p. 39
house, baby chicks better off in, 2-7-53, p. 51
house windows, best distribution of, 1-3-53, p. 39
houses, keep laying house well away from, 1-17-53, p. 48
hover easier, rope hoists make raising and lowering, 4-18-53, p. 52
stove, when to start fire in, 1-3-53, p. 39
Calcium for egg shells, oyster shell or ground limestone furnish, 8-15-53, p. 71
hens don't store, 8-15-53, p. 71
Cannibalism, chick, situations usually responsible for, 5-2-53, p. 41
crowding pullets in laying house may cause, 7-18-53, p. 41
method for preventing, 9-5-53 p. 60
overcrowding pullets causes, 10-3-53, p. 52
preventing, pays, 9-5-53, p. 60
ways of controlling, 10-17-53
Caponize cockerels for better selling, 5-2-53, p. 40
Capons and roosters should weigh from 7-10 pounds when, sold, 5-2-53, p. 40
can be additional source of income, 12-5-53, p. 38
make money with, 12-5-53, p. 38
Cecal coccidiosis, white leghorns tested for resistance to, 9-19-53, p. 63
Chick orders fewer than last year, 3-7-53, p. 80
Chickens, ma quit, again today, 4-18-53, p. 52
Chicks crowd up under brooder if too cold, 4-18-53, p. 53
feed, as soon as you get them, 2-21-53, p. 64
needs plenty clean, fresh water and right feed, 5-2-53, p. 40
Cholera, fowl, is spread, how, 5-16-53, p. 52
fowl, prevent, 4-4-53, p. 53
Chores, poultry, rearrangement may cut down, 2-21-53, p. 64
Clover, good eggs on, 1-17-53, p. 49
Coccidiosis, cecal, develop chickens that resist, 9-19-53, p. 63
cecal, recovery from, develops resistance to further infection, 5-2-53, p. 40
control measures for, 9-19-53, p. 63
follow manufacturer's directions when treating chicks for, 5-2-53, p. 40
resistance to, developed by middle of summer, 5-2-53, p. 40
Confinement of hens in mornings a good practice, 5-16-53, p. 50
Corn and oats recommended per 100 pullets per day, 11-21-53, p. 39
Coryza, symptoms of, 10-17-53, p. 37
Cull hens, serve two purposes by eating, 12-5-53, p. 39
Culling, advantages of, 6-20-53, p. 56
close, advantages of, 9-5-53, p. 60
close, keeps down feed cost per dozen eggs, 11-21-53, p. 38
hens should be continuous job, 4-4-53, p. 54
non-layers year around job, 8-15-53, p. 71
program means more profit per hen, 1-17-53, p. 48
pullets guide for, 12-5-53, p. 40
Debeaking may be necessary to control cannibalism, 10-17-53, p. 56
pullets to prevent cannibalism is a "must," 9-5-53, p. 60
Disease outbreaks, immediate treatment important for, 8-15-53, p. 71
poultry, best way to treat, 3-21-53, p. 68
Diseases, common, of farm flocks, 11-7-53, p. 42
poultry, travel distances, 1-17-53, p. 48
Drafts in laying house, avoid, 10-3-53, p. 52
Ducks, geese, guineas and turkeys can be raised profitably, 4-4-53, p. 55
Egg breakage, to reduce, 6-20-53, p. 36
care, low temperature important in, 3-7-53, p. 80
demand strong, 4-4-53, p. 54
feed ratio, favorable, encourages jump into egg business, 12-5-53, p. 39
feed ratio favorable to poultrymen, 8-1-53, p. 42
feed ratio improved, 4-4-53, p. 54
feed ratio more favorable than in past years, 4-18-53, p. 53
feed ratio more favorable than year ago, 10-3-53, p. 52
futures rated strong, 8-1-53, p. 42
grades show quality of egg when graded, 9-19-53, p. 63
laying contest, winning pen of hens in, 1-17-53, p. 48
laying new experience for pullet, 7-18-53, p. 41
market, build your own, 7-18-53, p. 34
marketing law in North Dakota, 9-19-53, p. 63
prices at peak, buy chicks early to get eggs when, 10-17-53, p. 37
prices considerably higher than year ago, 5-16-53, p. 50
prices expected to be above last year's prices, 7-14-53, p. 29
prices higher than last year, 6-6-53, p. 32
prices higher than last year, 4-4-53, p. 54
prices, highest, plan to hit, 6-6-53, p. 32
prices in March, April and May likely higher than last year, 2-21-53, p. 64
prices paid farmers in August, average, 10-3-53, p. 52
prices probably ten cents per dozen higher than last year, 8-1-53, p. 42
producers should keep records, 12-5-53, p. 39
producing states, Iowa at top of all, 3-7-53, p. 80
production, artificial lights may increase, 11-21-53, p. 38
production, August, five percent above last year, 10-3-53, p. 52
production first nine months in Iowa farms, 11-7-53, p. [illegible]
production hit new peak in, 2-7-53, p. 51
production in Iowa during August, 10-17-53, p. 55
production, keep hens from going into summer slump in, 6-6-53, p. 32
production per hen increased in Iowa, 2-21-53, p. 64
production per layer in [illegible] since 1935 (chart), 1-[illegible], p. 34
production, restricted water supply will cut, 11-21-53, p. 39
production, winter slump in, causes of, 2-5-53, p. 51
profits, free "boarders" cut, 7-18-53, p. 55
quality decreases rapidly [illegible] weather, 8-1-53, p. 42
quality high, to keep, 6-20-53, p. 36
room, keep temperature at [illegible] to 60 degrees in, 2-7-53, p. 51
shells, strong, oyster shell helps make, 2-21-53, p. 64
shells, thin, cause of, 6-20-53, p. 37
size and color no indication of quality, 9-19-53, p. 63
stocks, cold storage, lower than year ago, 4-4-53, p. 54
supplies, storage, below average, 4-18-53, p. 53
supply for balance of 1953, 9-19-53, p. 63
supply, storage, down, 10-[illegible], p. 55
yolk color varies, 6-20-53, p. 37
Eggs by grade, selling, 10-17-[illegible], p. 52
clean, deep nests keep, 2-7-[illegible], p. 41
clean fresh, demand for, 7-[illegible]-53, p. 41
clean, have necessary eye appeal, 6-20-53, p. 36
clean, hints to help keep, 6-[illegible]-53, p. 36
dozen, will buy 14.2 pounds of pork, try ration, 11-21-53, p. [illegible]
freeze pullet, if hard to sell, 9-5-53, p. 52
furnish complete proteins, 4-[illegible]-53, p. 55
get dirty in spring, 4-4-53, p. 52
good, on clover, 1-17-53, p. 49
grade A, best for frying, poaching, etc., 9-19-53, p. 63
grade A, should be able to market 75 percent, 10-17-53, p. 55
grade B, satisfactory for scrambling, baking, etc., 9-19-53, p. 63
grade C, satisfactory for baking and cooking, 9-19-53, p. 63
high-quality, confined hens lay, 5-16-53, p. 50
high quality, sold on grade basis mean more money, 10-3-53, p. 52
How keep high quality hens pot in, 11-21-53, p. 38
in storage, frozen and dried, lower supplies of, 11-17-53, p. 39
laid around farmstead may not bring top prices, 5-16-53, p. 50
laid by farm flocks in February, 4-18-53, p. 53
laid by Iowa flocks in July, 1951 vs. July, 1952, 9-19-53, p. 63
laid in 1952 by Iowa layers, 3-7-53, p. 80
laid per dozen, suggestions for cutting feed costs on, 3-21-53, p. 67
laid per 100 hens during June in Iowa, 8-1-53, p. 42
laid per 100 hens on Iowa farms in August, 10-17-53, p. [illegible]
laid per 100 layers averaged 1736, 9-19-53, p. 63
lost thru cracked eggs from hen to table, 11-21-53, p. 39
more, from your layers, 8-[illegible], p. 72
number of, laid by Iowa flocks in July, 9-19-53, p. 63
of each class, maximum weights per dozen of, 1-17-53, p. 48
one dozen, buys 12.2 pounds of feed in Iowa, 5-16-53, p. 50
per dozen, production cost of, 2-21-53, p. 64
poor quality, plentiful in hot weather, 7-18-53, p. 41
produced in June by Iowa layers, 8-1-53, p. 42
produced in 1952 four per cent more than 1951, 3-21-53, p. [illegible]
shell, in storage at end of August, 10-17-53, p. 55
should have high "I. Q.", 2-[illegible]-53, p. 38
should not freeze or get too hot, 1-17-53, p. 48
soft-shelled, cause of, 8-15-[illegible], p. 71
soft-shelled, causes of, 9-[illegible]-53, p. 64
soft-shelled, may be result of hot weather, 8-1-53, p. 42
sold on grade market bring more money, 2-7-53, p. 51
sorted in six color classes by machine, 3-7-53, p. 80
suggestion for breaking hens and dogs from eating, 4-18-[illegible], p. 52
wasted feed increases cost of producing, 6-6-53, p. 33
Fats, vegetable, help chicks grow, 2-21-53, p. 65
Feathers, hens lose, many die, 9-[illegible]-53, p. 64
Feed, chicken, cheaper than last year, 3-7-53, p. 80
concentrates eaten by pound, 3-7-53, p. 80
costs for poultry can be cut by providing good pasture, 2-[illegible]-53, p. 69
costs too much to be wasted, 10-3-53, p. 52
don't let hens waste, 1-[illegible]-53, p. 48
is poultryman's greatest expense, 5-2-53, p. 40
prices lower than last year, 4-[illegible]-53, p. 54
ratio per dozen eggs, 5-16-53, p. 50
required for one pound of pork or gain, 8-15-53, p. 71
savings average from 25 to 30 percent on restricted feeding plan, 6-6-53, p. 32

...ers, helps with active layers, 6-6-53, p. 52
...s and water fountains., special attention needed for, 8-8-53, p. 41
...by average 100 hens per ...ay, 1-3-53, p. 39
...by hens vs. roosters, 12-5-..., p. 40
...don't let hens, 11-21-53, 39
...suggestions for preventing, 8-3-53, p. 52
...ll cuts egg profits, 3-21-53, 67
...ll, increases egg cost, 12-5-..., p. 39
...solve all poultry problems, 8-3-53, p. 31
Feeder and waterer space needed per pullet, 8-15-53, p. 74
...matic, cuts down on labor, 6-20-53, p. 36
...lack of, causes chicks to starve to death, 4-4-53, p. 55
...needed for each chick, 1-3-..., p. 39
...needed per chick, 4-4-53, 55
Feeders alike best to have all, 10-3-..., p. 52
...boosts help bashful pullets get enough feed, 9-5-53, p. 60
Feeding chicks, efficiency in, pays dividend, 4-4-53, p. 55
...restricted, range plays important part in, 6-6-53, p. 32
...restricted, recommended by Dr. O. B. Kent, 6-6-53, p. 32
Fence around range will help protect pullets, 4-4-53, p. 54
...electric, around range fence, put, 4-4-53, p. 54
Fencing needed to protect poultry from wild life, 11-21-53, p. 39
Fertilizer, phosphate, added to litter keeps it dry, 8-15-53, p. 71
Forks, big and small, owners of, do not agree, 5-16-53, p. 51
...bigger, more profit, 5-16-53, p. 51
...do farm, make money?, 5-16-53, p. 51

## Livestock Aid

Abortions hit cow herd, 3-7-53, p. 76
in sows, cause off, 8-1-53, p. 6
Bangs, don't keep cow with, 2-7-53, p. 30
vaccinate heifers for, 11-7-53, p. 49
Brucellosis? Can barrows carry, 4-4-53, p. 36
causes sows to abort, 8-1-53, p. 6
infected cow, dispose of, 2-7-53, p. 30
Calcium, hens not getting enough, 4-4-53, p. 36
Eggs, soft-shelled, usually caused by shortage of calcium, 4-4-53, p. 36
Eneritis, bloody, system for getting rid of, 8-1-53, p. 6
Ewes, lose their wool, 4-4-53, p. 36
Eye trouble, young calves have, 9-5-53, p. 61
Fever, milk, no absolute preventive against, 8-1-53, p. 6
Foot, rot, treatment for, 11-7-53, p. 49
Frozen feet, suggestions for calves with, 2-7-53, p. 31
Hyperkeratosis, grease and oil not cause of, 2-7-53, p. 31
Leptospirosis may cause abortion in sows, 8-1-53, p. 6
Lighting, night, did not speed growth of baby pigs, 2-7-53, p. 30
Livestock health hints, 2-21-53, p. 53, 4-18-53, p. 62
For livestock profits, 1-17-53, p. 20, 5-16-53, p. 40
Lumps stop flow of milk, 5-2-53, p. 31
Lungworms hit sheep flock, 8-1-53, p. 6
Mastitis, symptoms of, 11-7-53, p. 49
Milk, bloody, cause of, 11-7-53, p. 49
Milker, hard, surgery for, 9-5-53, p. 61
Parasites, cattle, clean up, 3-7-53, p. 77
cause sheep to scour, 9-5-53, p. 61
Pigs, baby, losing too many, 3-7-53, p. 77
new, tremble after birth, 5-2-53, p. 31
Pinkeye, recommendations for, 9-5-53, p. 61
Pneumonia, nursing and care required after cows recovers from, 2-7-53, p. 30
Poisoned, suspect dog was, 3-7-53, p. 76
Rhinitis, atrophic, find clues to cause of, 4-4-53, p. 37
Scours, bloody, cause of, 8-1-53, p. 6
in sheep, causes of, 9-5-53, p. 61
Settle, yearling heifers won't, 2-7-53, p. 31
Shaking in pigs, cause of, 5-2-53, p. 31
Soapy water not for calves, 3-7-53, p. 77
Streptococcic infection may not be necessary to get rid of hogs after, 11-7-53, p. 49
Ticks, sheep, wants to get rid of, 3-7-53, p. 76
Typhoid, fowl and fowl cholera, symptoms of, 11-7-53, p. 49
fowl, clean, disinfect for, 4-4-53, p. 37
Vitamin B, pigs need, 2-7-53, p. 30
Warts on cow's teats, treatment for, 8-1-53, p. 6
Wing shoulders inherited? Are, 4-4-53, p. 37
X-Disease cause no longer in grease, 2-7-53, p. 31

## Monthly Tips

Bacteria can determine if feed ration good for cattle, 1-3-53, p. 47
Bedding, hog house, chopped corn fodder or soybean straw for, 2-7-53, p. 61
Beef prices next fall, look for lower, 4-4-53, p. 56
Brooders, chick, clean and disinfect all, 2-7-53, p. 61
Business organization of farm, improve, to hold up profits, 11-7-53, p. 32
Calves and yearlings, put good quality feed in, 1-3-53, p. 47
Car, cost to operate, 1-3-53, p. 47
Carotene and crude protein content in leaves reduced by drying, 3-7-53, p. 25
Cattle, buying, suggestion regarding, 10-3-53, p. 61
feeder and fat, price spread unusually narrower between, 5-2-53, p. 50
feeding, money lost in, result of negative feeding margins, 8-1-53, p. 46
feeding profits in 1954, margins necessary for, 9-5-53, p. 57
herds, clean up, 6-6-53, p. 35
light, lower grades of, poor risk this fall, 10-3-53, p. 61
numbers building up, 4-4-53, p. 56
price trend will be down next few years believe, 4-4-53, p. 56
56
price trends, normal seasonal, 1-3-53, p. 47
prices, dairy, should be more stable next year, 10-3-53, p. 61
prices, feeder, today's conditions regarding, 8-1-53, p. 46
prices likely to trend downward next few years, 5-2-53, p. 50
unfavorable time to buy, 5-2-53, p. 50
upper grades of, in more favorable position, 8-1-53, p. 46
Chicks, early, advantages of raising, 2-7-53, p. 61
early hatched, bring greatest poultry profits, 2-7-53, p. 61
Chores, reorganize, to cut down on number of tracks, 1-3-53, p. 47
Chroring trips, advantage of taking someone along on, 1-3-53, p. 47
Cockerels, early, market, 7-4-53, p. 23
Colchicine used to make genetic changes in plants, 1-3-53, p. 47
Contour lines, suggestion for laying out, 2-7-53, p. 61
Corn, be ready to buy, at harvest time this fall, 9-5-53, p. 57
cheapest at picking time, 11-7-53, p. 32
fodder, chopped, for hog house bedding, 2-7-53, p. 61
has priority on fertilizer, 4-4-53, p. 56
loan rates probably $1.50 per bushel, 8-1-53, p. 46
produced per hour of work on corn, 3-7-53, p. 25
storage needs, check, 7-4-53, p. 23
stored in unused oats bins should net nice profit, 9-5-53, p. 57
this fall, cash price of, estimated 8-1-53, p. 46
Cow herd, beef, don't put high cost feed into, 1-3-53, p. 47
prices beginning seasonal drop, 6-6-53, p. 35
Cows and quality heifers, when to sell, 1-3-53, p. 47
apart, how to tell, 1-3-53, p. 47
beef, sell best in spring, 4-4-53, p. 56
Crib space, don't get caught short of, 4-4-53, p. 56
Cribs, temporary corn, next year's hog pasture good place for, 10-3-53, p. 61
Culling, best time for, 5-2-53, p. 50
Cultivator shovels sharpened in March, get 3-7-53, p. 24
Dock and castrate lambs when to, 5-2-53, p. 50
Ear mark gilts for future breeding selection, 5-2-53, p. 50
Egg prices good this summer, 5-2-53, p. 50
production lagging, 6-6-53, p. 35
Eggs down, cold storage holdings of, 6-6-53, p. 35
graded, premium widening for, 7-4-53, p. 23
Farm operations, wasteful, prune out, 11-7-53, p. 32
products, demand for, likely cheaper next year, 11-7-53, p. 32
Farming by rules of time-tested merit in 1953, 1-3-53, p. 47
Farrowing stalls and heat lamps make fine combination, 3-7-53, p. 24
stalls, big advantage of, 3-7-53, p. 24
stalls for pigs very successful, 3-7-53, p. 24
Feed ration good for cattle, bacteria used to tell if, 1-3-53, p. 47
Fertilizer dollar is buying, check what, 5-2-53, p. 50
nitrogen, helps corn withstand drouth, 10-3-53, p. 61
Foxtail, giant, controlled with TCA, 3-7-53, p. 25
Fryer markets breaks about mid-June, 2-7-53, p. 61
Garden in field, put, 7-4-53, p. 23
now, plan, 2-7-53, p. 61
Gardens need good soaking to be helpful, 7-4-53, p. 23
Gate easier than crawling over fence, 1-3-53, p. 47
Genetic changes in plants, colchicine used to make, 1-3-53, p. 47
Grain bins, clean and disinfect, 6-6-53, p. 35
Helicopters used for aerial spraying, 1-3-53, p. 47
Hog houses drier and cleaner, suggestion for keeping, 3-7-53, p. 24
prices, peak, normal times for, 1-3-53, p. 47
supplies smaller, 9-5-53, p. 57
Inefficiency should be eliminated on every farm, 11-7-53, p. 32
Inflation in 1953, don't expect much 1-3-53, p. 47
Insurance policies, fire, check your, 10-3-53, p. 61
Lamb feeders should watch wheat pasture prospects, 8-1-53, p. 46
Lambs, later fed, best profits made on, 7-4-53, p. 23
wheat pasture, normal time for marketing, 8-1-53, p. 46
Lamps, heat, saver of baby pigs, 3-7-53, p. 24
Land prices, farm have stopped upward climb, 2-7-53, p. 61
Livestock outlook next year, business conditions chief uncertainty in, 9-5-53, p. 57
program to feed supply and farm plan, fit, 1-3-53, p. 47
Machine work hired can be more profitable than owning machines, 4-4-53, p. 56
Machinery care, farm, more important in times of smaller profit margins, 4-4-53, p. 56
farm, in shape, March last call for getting, 3-7-53, p. 24
Machines, February right month to repair, 2-7-53, p. 61
Manure strip for contour lines, 2-7-53, p. 61
Market weight fast, supplemental feed necessary to get pigs to, 3-7-53, p. 24
Newsprint paper from sugar cane waste one of largest developments, 3-7-53, p. 25
Note book for jotting down ideas save time, 4-4-53, p. 56
Oat crop, Iowa's poor, 8-1-53, p. 46
Oats, seed, for germination, be sure to test, 3-1-53, p. 24
seed, should be tested before seeding, 2-2-53, p. 18
unneeded bin room for, used for corn storage, 9-5-53, p. 57
Pigs weaned per litter last spring, 3-7-53, p. 24
Polio, progress being made against, 1-3-53, p. 47
Price supports put corn and soybeans in most profitable position, 4-4-53, p. 56
Rat-proof crib if resealing corn, 6-6-53, p. 35
Seeder, drill, corn planter and mower should be checked in March, 3-7-53, p. 24
Sows for breeding, how to select, 11-7-53, p. 32
Soybean straw makes good floor insulation, 2-7-53, p. 61
Soybeans, loans on, means high dollar on soybean crop, 9-5-53, p. 57
per acre needed to pay production costs, 3-7-53, p. 25
sealing, offers use for excess oats storage space, 9-5-53, p. 57
storing, profitable this fall, 10-3-53, p. 61
Spray schedule important for good quality fruit, 5-2-53, p. 50
Spraying, aerial, helicopters used for, 1-3-53, p. 47
TCA effective in control of giant foxtail, 3-7-53, p. 25
Teeth, false, need good diet, 1-3-53, p. 47
Town too often, go to, 11-7-53, p. 32
Water for livestock, provide plenty of, 6-6-53, p. 35

## Research

Accidents, fatal, in homes, bedrooms and stairways, accounted for half of, 4-4-53, p. 40
Acetonemia, treatment for curing, 7-18-53, p. 19
Agricultural research, amount spent by private industry on, 10-17-53, p. 45
Aldrin and dieldrin, normal applications of, not harmful to soil, 11-7-53, p. 28
effective against wireworms attacking potatoes, 3-21-53, p. 43
mixed with fertilizer for controlling rootworms, 1-17-53, p. 37
Allergies more common in animals than human beings, 3-21-53, p. 43
Amicetan holds promise against tuberculosis, 7-19-53, p. 19
Anesthetic, uncommon for patients to talk voluntarily under, 7-4-53, p. 22
Antibiotic feeding of hogs did not affect quality of pork, 7-4-53, p. 22
new, called Amicetan, 7-18-53, p. 19
Antibiotics and vitamin B12 don't put lot of extra fat on hogs, 11-7-53, p. 28
pigs fed, made faster gains, 8-1-53, p. 50
Antipyrine used to determine fatness of live animals, 5-2-53, p. 49
Arsenoso Benzene drug used in tests on chickens, 7-4-53, p. 22
Athletes getting oxygen during rest periods recovered more quickly, 3-21-53, p. 43
Aureomycin and vitamin B-12 help overcome mange, 6-20-53, p. 48
Balers, twine tie, account for 37.9 percent of hay harvested, 11-21-53, p. 28
wire tie, handle 23.8 percent of hay harvested, 11-21-53, p. 28
Bandage, new cotton, saved government over five million dollars, 10-17-53, p. 45
Barberry bushes, plan to use MCP on, 6-6-53, p. 17
Barley in 1951, profit per acre from, 6-6-53, p. 17
Bed that rocks, false wall attached to end of bed remedy for, 4-18-53, p. 35
Beef cattle to stand 120° Summer temperatures goal of breeding studies, 4-4-53, p. 40
Beef, choice, roughages cut coat of producing, 9-5-53, p. 45
Blood plasma substitute, spoiled beer produced bacteria for, 4-18-53, p. 35
Brakes, defective, cause many auto accidents, 8-1-53, p. 50
Bread softeners, two materials from soybean flour suitable as, 10-17-53, p. 45
Breeding, artificial, frightened cow may not settle with, 2-7-53, p. 35
Butter flavoring developed, artificial, 6-20-53, p. 48
Butterfat test, new, 4-18-53, p. 35
Calories needed by 400-pound calf, 7-18-53, p. 19
Carbomycin new antibiotic, 5-2-53, p. 49
Carbon monoxide, dogs sensitive to, 4-4-53, p. 40
Cartilage, breastbone, from young steers for human features, 1-17-53, p. 37
Cast, plaster of paris, better casts to replace, 1-17-53, p. 37
Cheese, curing time cut in half for, 12-5-53, p. 43
Chemicals in livestock feed may help control insect pests, 5-2-53, p. 49
Chicken, twelve year old, equivalent to 100 year old human being, 9-5-53, p. 45
Chlorine treated water improves keeping quality of freshly killed poultry, 11-7-53, p. 28
Chlorophyll, disagree with claims about deodorizing qualities of, 5-16-53, p. 5
Cobalt, radioactive, makes pork safer to eat, 11-7-53, p. 28
Coccidiosis in chickens, Arsenoso Benzene prevented, 7-4-53, p. 22
Colors, average person can see about 500,000 different, 7-4-53, p. 22
Compost without objectionable odors, can turn garbage into, 12-5-53, p. 43
Corn and cattle prices, average long-time relationship between, 7-18-53, p. 19
drying, cost of, 11-7-53, p. 28
in 1951, profit per acre from, 6-6-53, p. 17
plant, young, nutrients taken from top soil at various stages by, 8-1-53, p. 50
roots, normal extension of, 12-5-53, p. 43
rootworm damage controlled with fertilizer and aldrin, 1-17-53, p. 37
starch used in manufacture of dynamite, 11-21-53, p. 28
Cows digest woody types of roughage, learn how, 11-21-53, p. 28
Crop yields per acre up 32 percent since 1932, 11-7-53, p. 28
DDT application lasts five years on some insects, 2-21-53, p. 41
saved lives and prevented illnesses, 2-7-53, p. 35
solution protects woolens, 1-17-53, p. 37
Detergents made from animal fats, 6-20-53, p. 48
Dew may do more than you think, 8-1-53, p. 50
Diet which limits protein intake being tested, 5-16-53, p. 5
Dirt, natural, not harmful, certain amount of, 3-21-53, p. 43
Diseases, plant, new antibiotic for controlling, 12-5-53, p. 43
Drivers, safe, farmers are, 11-21-53, p. 28
Dust, insecticide, charge,, 2-7-53, p. 35
Dye that makes cotton and wool water repellant, 3-7-53, p. 25
Dynamite, corn starch used in manufacture of, 11-21-53, p. 28
Eggs, fresh, more nutritious, 7-4-53, p. 22
Enteritis, swine, streptomycin given to animals controls, 7-4-53, p. 22
Eyes, black, cold and hot water compresses reduce swelling and coloring in, 7-18-53, p. 19
Farm food products purchased per year by average family, 8-17-53, p. 45
Farms, Illinois, earnings dropped on, 8-1-53, p. 50
Fatness of live animals determined by new test, 5-2-53, p.
Fats, animal, can substitute for palm oils, 7-4-53, p. 22
surplus animal, used in manufacture of plastic materials, 6-20-53, p. 48
Feed not only cost in raising livestock, 8-15-53, p.
Feeding schedule, baby, being tested, 2-21-53, p. 41
Fence posts, pine, new way to treat, 11-21-54, p. 28
Fences, paper snow, may replace wooden type, 3-21-53, p. 43
Fertilizer applications decreased corn rootworm damage, 1-17-53, p. 37
Fireblight on apple trees, control, 12-5-53, p. 43
Fish habits checked by underwater TV camera, 6-20-53, p.
Flameproofing cotton fabrics, new process for, 5-16-53, p.
Flavors from cooking fruits processed and used as fruit flavoring material, 4-4-53, p.
Flax in 1951, profit per acre from, 6-6-53, p. 17
Flies, fruit, resistant strain of, DDT required by, 8-15-53, p.
Folic acid content of eggs increased in stored eggs, 7-4-53, p. 22
Food dollar, farmers getting 4 percent of, 8-15-53, p. 83
eaten by average adult in 1 week, 12-5-53, p. 43
Fungicides for control of stem rust, 4-4-53, p. 40
Furacin, feed, to control rats, 6-6-53, p. 17
Garbage into compost, can turn, 12-5-53, p. 43
Grass eaten by cows over 8 day period, 7-19-53, p. 19
treated with maleic hydride, condition of, 9-5-53, p.
Grasshoppers can eat, amount of hay, 7-18-53, p. 19
Gum, chewing, with fluorine for reducing tooth decay, 5-2-53, p. 49
Hamburger, freeze, best time to, 9-5-53, p. 45
Hay harvested, total, loose hay makes up 30.8 percent of, 11-21-53, p. 28
Heart beat rate of mice, 10-17-53, p. 45
failure, cause of, 7-18-53, p. 19
Hybrids, sugar beet, making, 3-7-53, p. 25
INH new drug for TB, 8-1-53, p. 50
Ice that doesn't melt, 3-7-53, p. 25
Ilotycin, new antibiotic for infections, 1-17-53, p. 37
Insects and diseases, harmful, brought in from foreign countries, 7-18-53, p. 19
Insects in wheat, microphones used to determine if, 12-5-53, p. 44
Ironing board cover, scorch proof, 6-20-53, p. 48
Ketosis, sodium propionate can cure, 7-18-53, p. 19
Lactometer test for milk solids, 9-5-53, p. 45
Lespedeza produces two kinds of flowers, 9-5-53, p. 45
Life span of average American wage earner, 3-21-53, p. 43
Light into energy, found chemical reaction to change, 4-18-53, p. 35
Lights, automobile, on five minutes after turned off, gadget keeps, 4-4-53, p. 40
Limestone dust, free-flowing, carrier for insecticides, 8-1-53, p. 50
Livestock diseases cost nation $2 billion last year, 8-1-53, p. 50
marketing research project started by Iowa State college 5-2-53, p. 49
Magnamycin, new antibiotic, being tested, 5-16-53, p. 5
Maleic hydrazide stunts grass growth, 9-5-53, p. 45
Mange controlled with aureomycin and vitamin B-12, 6-20-53, p. 48
Married men and women between 25 and 29, 10-17-53, p. 45
Matches a day, average American uses 14, 4-4-53, p. 40
MCP effectively kills barberry bushes, 6-6-53, p. 17
Measles within 10 seconds, can catch, 1-17-53, p. 37
Meat consumption per person in U. S., average, 7-4-53, p. 22
eggs, dairy products, citrus fruits, higher consumption of, 8-17-53, p. 37
improper handling of livestock wastes, 8-15-53, p. 83
Mentally deficient children take adjustment, 6-6-53, p.
Milk contaminated with rust, bacteria multiply rapidly in, 4-18-53, p. 35
homogenized and pasteurized, frozen, keeps flavor six weeks, 4-18-53, p. 35
in glass bottles in daylight acquires unpleasant taste, 2-5-53, p. 43
is good for children, proof that, 6-6-53, p. 17
kept longer from treated cows, 11-7-53, p. 28
solids, total, accurate test for, 9-5-53, p. 45
whales' richer than cow's milk, 8-1-53, p. 50
Mineral content of milk more constant than pasture cows, 7-19-53, p. 19
Mold on foods, sorbic acid new chemical used to prevent, 9-5-53, p. 45
Nitrogen and roots left in soil by crops, 2-7-53, p. 35
Oats in 1951, profit per acre from, 6-6-53, p. 17
planted early makes more hay, 2-21-53, p. 41
Oligomycin new antibiotic for controlling plant diseases, 5-2-53, p. 43
Opossums weight, baby, at birth, 7-18-53, p. 19
Orange juice, concentrated, 11-21-53, p. 28
juice, powdered, new product of research, 2-21-53, p. 41

Organ matter, yield of vegetable ps increased by extra, 10-53, p. 33
Para-a inobenzoic acid to poultry d, permit addition of, 4-4-p. 40
Phosph us, soil, use baking soda tests for, 12-5-53, p. 43
Plants sed by man, less than one rcent of world's, 4-18-53, 35
Plastic aterials made from animal ts, 6-20-53, p. 48
Polio, ance of your child getting, 15-53, p. 83
prev tion, another step on way 4-18-53, p. 35
Potato and grain consumption wn, 1-17-53, p. 37
Rain ops shape of, 5-2-53, p. 49
inch f, energy in, 7-18-53, p. 19
Raindr ps,estimated energy in, 2-17-, p. 35
pow in, 7-18-53, p. 19
Rainst m, energy released by, 11-53, p. 28
Rats, w way to get rid of, 6-6-53, 17
Reduci diet, tip on, 8-1-53, p. 50
Researc agricultural, federal and ate governments paid bil-on dollars for, 8-1-53, p. 50
fund for, accepted by Iowa Agri-ultural experiment station,, 1-21-53, p. 28
Roads, rubber, advantages of, 3-7-, p. 25
Roughages cut cost of producing choice beef, 9-5-53, p. 45
Rubber insole, foam, insulates against cold, 3-21-53, p. 43
new synthetic, may give tires which outlast car, 5-16-53, p. 5
Rumen, cow's bacteria in, 4-18-53, p. 35
Rust spots in milk pail can ruin milk, 4-18-53, p. 35
stem, fungicides given good con-trol of, 4-4-53, p. 40
Sand replaced by glass bubbles in concrete and plaster, 3-7-53, p. 25
Sawdust irradiated with electrons digested by cows, 11-21-53, p. 28
Semen, frozen, over two thousand cows bred with, 10-17-53, p. 45
Sewing at night requires plenty of light, 3-7-53, p. 25
Silage, corn, superior to grass sil-age, 5-16-53, p. 5
corn, grass, only roughage can be fed to milk cows without loss in milk production, 7-18-53, p. 19
Skin color in human beings, two drugs used to control, 5-2-53, p. 49
Skull plates plastic; may replace those of steel and tantalum, 7-18-53, p. 19
Sleeping pill wakes you up after eight hours, 3-21-53, p. 43
Slush and road surfacing materials on cars can cause corrosion, 5-2-53, p. 49
Smoking, new medicated tablet helped patients stop, 7-4-53, p. 22
Soda, baking, used for soil type tests, 12-5-53, p. 43
Sodium proprionate treatment can cure Ketosis, 7-18-53, p. 19
Soil and water conservation plan, carrying out, 1-17-53, p. 37
Sorbic acid prevents mold on foods, 9-5-53, p. 45
Sorghum, two crops of grain from, 2-21-53, p. 41
Soybean flour adds softness to bread, 10-17-53, p. 45
oil spread, 2-7-53, p. 35
Soybeans and flax, can determine amount and quality of oil in, 12-5-53, p. 43
in 1951, profit per acre from, 6-6-53, p. 17
Spray, 2,4-D for tomatoes, 6-20-53, p. 48
Sprinkler system used to spread soil insecticides, 2-21-53, p. 41
Staple with special woodgripping flanges, 6-6-53, p. 17
Starch, plastic, makes treated clothes harder to soil, 3-7-53, p. 25
Steak, dried, 7-18-53, p. 19
Stomachs, cow's, capacity of, 4-18-53, p. 35
Strep omycin given to calves con-trols scours, 7-4-53, p. 22
sprayed on bean plants protects them from halo blight, 5-16-53, p. 5
Sunglasses, special lenses take sun-light glare out of, 7-4-53, p. 22
Surgery, plastic, breastbone carti-lage from young steers used in, 1-17-53, p. 37
TB, deaths from, greatly decreased, 8-1-53, p. 50
Terraced and contoured field, eight inch rain caused no erosion in, 8-15-53, p. 83
Terramycin and streptomycin con-trol fireblight on apple trees, 12-5-53, p.43
Ticks, sheep, controlled with in-secticide sprays, 6-20-53, p. 48
Tobacco, oven-dried, lost six per-cent of its nicotine, 8-15-53, p. 83
Tomato plants, 2-4-D Hormone spray for, 6-20-53, p. 48
Trace elements may be added to plants in new form, 3-21-53, p. 43
Trees, species on U. S. forest service lists, total number, 6-20-53, p. 48
Trees, dwarf fruit, becoming more popular, 6-6-53, p. 17
Tuberculosis, combination of two drugs proving more effective against, 3-7-53, p. 25
Twins and triplets, identical, help dairy scientists, 2-21-53, p. 41
TV screen made up of nearly quar-ter of million tiny dots pic-ture on, 4-4-53, p. 40
shows recorded on magnetic tape, 6-20-53, p. 48
Uranium ore, plants help locate deposits of, 3-21-53, p. 43
Vitamin C shortage may cause hardening of arteries, 8-1-53, p. 50
loss, cold alone can cause, 4-4-53, p. 40
Wasp's sting very destructive, poi-son from, 3-21-53, p. 43
Water, amount of, used in average farm kitchen, 8-15-53, p. 83
Weed killers reduce moisture con-tent of grass seed, 9-5-53, p. 45
Weeds cost nation over 85 billion last year, 8-1-53, p. 50
Weight, extra, most important nu-tritional problem, 2-7-53, p. 35
Wood and pulp waste can be con-verted into livestock feeds, work under way to see if, 11-21-53, p. 28
Woolens can be protected from in-sects with DDT, 1-17-53, p. 37
Workers, congenial groups of, do more work, 5-2-53, p. 49
X disease, cause of, 10-17-53, p. 45
vitamin A can help calves recover from, 10-17-53, p. 45
Yeast, Torula, is 45 percent protein, 11-21-53, p. 28

## Service Bureau

ACP payment, to collect, 3-7-53, p. 46
Administrator in will, name, 2-21-53, p. 40
Administrators fee from estate, 4-4-53, p. 62
Aid to dependent children, 7-4-53, p. 6
Ants in lawn, to control, 7-4-53, p. 6
Assistance, old age, who pays, 1-17-53, p. 46
Beneficiary, insurance, change, 8-15-53, p. 60
Birds, non-game, are protected, 4-4-53, p. 63
Blind, assistance for the, 8-1-53, p. 33
